

Individual Allergic Reactions Management Plan 2022

This plan is to be completed by the principal or nominee in consultation with the parents/s on the basis of information from the student's medical practitioner (green **ASCIA Action Plan for Allergic Reactions**) provided by the parent.

It is the parents' responsibility to provide the school with a copy of the student's ASCIA Action Plan for Allergic Reactions (completed by the student's medical practitioner) and an up-to-date photo of the student - to be appended to this plan; and to inform the school if their child's medical condition changes.

Individual Allergic Reactions Management Plan 2022

ENVIRONMENT			
To be completed by principal or nominee. Please consider each environment/area (on and off school site) the student will be in for the year, e.g. classroom, canteen, food tech room, sports oval, excursions and camps etc.			
Name of environment/area: Food Technology			
Risk identified	Actions required to minimise the risk	Who is responsible?	Completion date?
Identification of student at risk	Have photos of students with allergies in Food Technology prep area.	Staff	Each term
Ingestion of allergen	Modify ingredient where possible	Staff	Each lesson
	Student to notify staff if they see an ingredient they are allergic to	Student	Each Lesson
Name of environment/area: Camps/ Excursions			
Risk identified	Actions required to minimise the risk	Who is responsible?	Completion date?
Ingestion of allergen	Notify camp or staff going on excursion of students with allergies	Staff	Each camp
	Students to be aware of the risk when unsure to ask staff to help	Student	Anytime
	Consult with parent prior to camp/excursion	Staff	Each camp
Name of environment/area: Canteen			
Risk identified	Actions required to minimise the risk	Who is responsible?	Completion date?
Ingestion of allergen (non-safe food)	Student /parent to check food available from canteen and know what they can purchase	Student /Parent	At all times
Name of environment/area:	General School community		
Risk identified	Actions required to minimise the risk	Who is responsible?	Completion date?
Friends	Not to eat foods from friends without listed ingredients	Student	At all times
	Washing hands	Everyone	At all times

Individual Allergic Reactions Management Plan 2022

This Individual Allergic Reactions Management Plan will be reviewed on any of the following occurrences (whichever happens earlier):

- annually
- if the student's medical condition, insofar as it relates to allergy, changes
- as soon as practicable after the student has an allergic reaction in the care of the school

In addition to the above, this plan should be reviewed by the school staff in charge, immediately prior to any off-site activity, such as camps and excursions, or at special events conducted, organised or attended by the school (eg. class parties, elective subjects, cultural days, fetes, incursions) which the student to whom this plan applies is attending.

I have been consulted in the development of this Individual Allergic Reactions Management Plan.

I consent to the risk minimisation strategies proposed.

Risk minimisation strategies are available at Chapter 8 – Risk Minimisation Strategies of the Anaphylaxis Guidelines
