

EGG DROP CHALLENGE

By Sophie and Tiahana

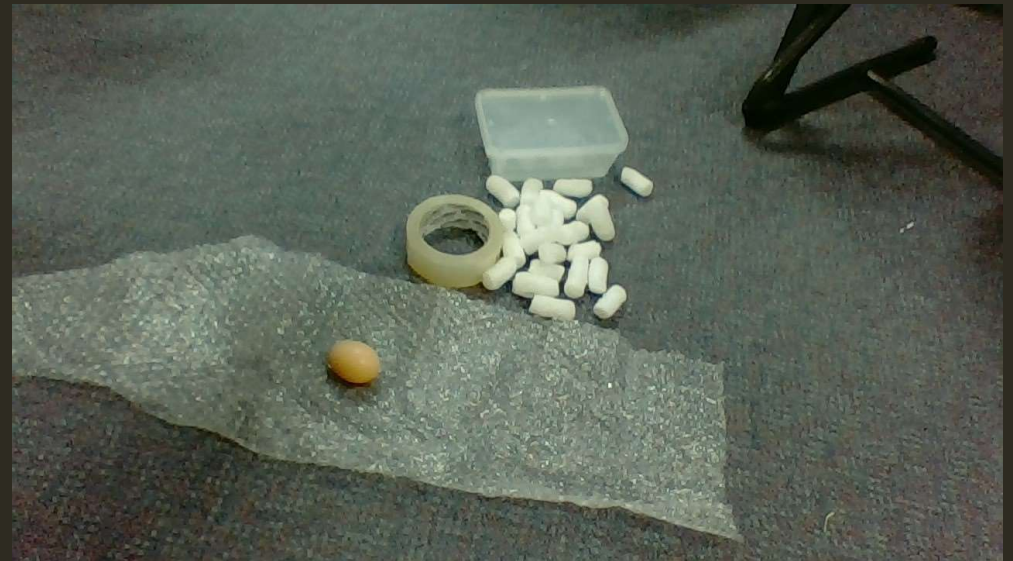

Goal:

To create armour to protect the egg when it is dropped from a height

Materials:

- Bubble wrap
- Cotton wool balls
- Packing Peanuts
- 2x Plastic containers
- Sticky Tape

Steps:

Step 1- Wrap the egg in bubble wrap.

Step 2- Once wrapped secure with tape.

Step 3- Place packing peanuts and cotton wool balls in container.

Step 4- Place the egg in the 2 containers.

Step 5- Put both of the containers on top of each other and tape together.

Conclusion:

Our egg drop structure worked very well and the egg survived. Lots of other structures work as well.
