Term 4 Performing Arts
Curriculum Overview 2026

During Term 4, students will focus on developing their performance skills through singing, movement and drama activities in preparation for our end-of-year Carol Evening.

All students will rehearse a selection of Christmas carols, developing their confidence in singing as part of an ensemble. They will work on keeping a steady beat, singing with accurate pitch and rhythm, remembering lyrics, following musical cues and performing with expression. Students will also develop their ability to listen to others and work together to create a balanced group performance.

Students will continue to develop their performance skills by considering stage presence, posture, facial expression, voice projection and appropriate movement. They will practise entering and exiting the performance space confidently and responding to cues during rehearsals and performances.

Seniors – Nativity Play

Senior students will also prepare and perform a Nativity play. Through rehearsals, students will explore characterisation, dialogue, movement and stagecraft. They will work collaboratively to develop their characters, learn lines, use clear and expressive voices, and understand basic stage directions.

Students will also explore how costumes, props, music and movement can help communicate characters, settings and ideas to an audience. Rehearsals will encourage cooperation, responsibility and confidence as students work together towards a shared performance.
