

WHAT'S BEEN HAPPENING

The children participated in an exciting STEM challenge where they designed and built a water system. The children poured water into the top, and watched as the water dripped down through different sections, flowing from one part to another. This hands-on activity encouraged problem-solving, creativity, and an understanding of cause and effect. The children also explored their creativity through craft experiences. They made their own hair clips and earrings using a variety of materials. Additionally, the children created pom pom monsters, using bright colours and different textures to bring their ideas to life.

Sensory play was also a highlight, with the children enjoying bubble dough. The children explored the soft, stretchy texture, engaging in imaginative and calming play.
