

REMOTE VCE VOCATIONAL MAJOR -VCE VM

Swinburne will be offering the new VCE VM (units 1-4) in a remote learning format for students to complete their senior secondary education, where they live.

This course has been specifically designed for an excellent online learning experience, understanding that even when life gets in the way you can still complete your senior secondary education from your home. What can you expect for the new VM? A two-year senior secondary certificate covering 16 units. You will study Literacy, Numeracy, Work Related Skills, Personal Development Skills, and an industry in the form of a VET sampler. The VET sampler will give you a taste of training in the Business, Finance and Information and Communication Technology training packages.

Single VCE VM subjects are also available for students at schools who cannot provide all VM subjects. Applications are open now for the VCE VM 2023. Send us an email at vcevm@swin.edu.au

Full Certificate and delivered in a remote learning format

Purpose built for an excellent online learning experience

Supported by registered secondary teachers
