AN INTERACTIVE WEB EVENT FOR PARENTS AND STUDENTS

SEXTING + PORNOGRAPHY + CONSENT + IMAGE-BASED ABUSE

Young people can be facing a unique set of pressures that must not be underestimated.

In a digital age, with so much connection online, tweens and teens can be struggling to build and maintain positive relationships.

However, we believe that conversations can change lives.

THIS EVENT WILL:

- Provide parents and students the opportunity to sit down together and engage in powerful conversations that can often be difficult to have.
- Address important topics in a preemptive, age-appropriate way. This event will empower parents to have ongoing, open and honest conversations in their home.
