

Andrew McMeekin

I joined Council in 2012 after my son started at BK in Year 9. Like my fellow councillors at the time and those I currently serve with, my interest was sparked by a desire to make whatever additional contribution I could to the School. Having had an alternative secondary education and knowing many alumni of Arlington there, I felt a strong connection that was only strengthened after watching the influence Preshil had on my son. I have been privileged to have been on Council during a period of considerable change that has seen us go from strength to strength without ever losing sight of who we are.
