Summary Description: This webinar offers latest research insights into Australian spirituality plus reflection about the impact on communities of faith.

Event Description:

Did Jesus exist? What do people think about Jesus and the Church today? Join a free Webinar presented by NCLS Research to gain in-depth insights about the perspective of Australians on Jesus and the Christian Church.

You'll discover

- which groups of Australians are most open and engaged
- the difference that factors like age and gender can make
- what this means for the mission of your congregation and the broader Aussie church.

Speakers are Dr Ruth Powell, Director of NCLS Research and guest speaker Karl Faase. Dr Ruth Powell will share latest results from the Australian Community Survey while Karl Faase will provide his reflections on the implications of these findings for ministry and mission.

Insights are based on the latest Australian Community Survey (ACS) results run by NCLS Research. The Australian Community Survey compares the attitudes of church attenders and the wider community on a range of social issues, tracks spirituality and religiousness, and evaluates how the Australian community views churches in society.
