

The University of Melbourne

School of Mathematics & Statistics

2022 Maths Research Competition

Open to all students in Australia (years 5-12)

The School of Mathematics and Statistics Research Competition provides school-aged students with the opportunity to understand what it means to conduct mathematical and statistical research.

Be a real mathematician! Unleash your creativity and your problem-solving skills – investigate, collaborate, hypothesise, prove, and present!

Details

- Free to enter!
- Work in teams of up to 3 members (or on your own)
- Choose a maths & statistics project to research from the provided booklet
- Work on different projects with different teams (if you want to)
- Write up results in a report or visual display
- Submit completed research by 10 August 2022 (done by your teachers)

Prizes

- Top Junior Team (Years 5-6) - \$1500 AUD
- Finalist Teams - \$600 AUD
