

## **YEAR 10 AND 11 – NURSING AS A CAREERS DAY (NACD)**

Continued...

SuniTAFE took the students through a brief workshop presentation in their impressive health Laboratory and discussed Nursing in the Military and pathway courses available locally that articulate into the La Trobe University health-related courses.

Finally, our students visited the Mildura Base Hospital where they rotated through various interactive workshops including Occupational Therapy, Midwifery, Infection Control, Urinalysis and Mental Health. Student feedback was overwhelmingly positive and communicated that the day influenced subject choice consideration.
