 invisalign®

from Social Lives to Social Media, teens today are facing more challenges when it comes to self-esteem

## Truth 1

When it comes to wearing metal braces, an overwhelming

**92% of teens**

feel that it would keep them from fitting in with their peers.

## Truth 2

Teens wearing Invisalign aligners are 2x more likely to have a

**Boost in self-esteem**

while in treatment than teens treated with metal braces.

## Truth 3

In the hands of a trained professional, Invisalign Teen aligners can be

**Just as effective as metal braces**

Patented technologies like SmartForce, SmartTrack and SmartStage can effectively treat both common and complex teeth-straightening concerns.

## Truth 4

Invisalign aligners may actually

**Cost about the same as metal braces**

and just like braces, they may be included under your dental insurance policy.

## Truth 5

Teens wearing Invisalign aligners are

**68% less likely to be teased**

than those wearing metal braces. Since Invisalign aligners are virtually invisible, bullies cannot tease about what they cannot see.

## Truth 6

Orthodontists tell us that

**Teens are more responsible**

than adults when it comes to wearing their aligners! Clinical data confirms that teens wear their aligners up to 21 hours per day, on average, just as recommended.
