

February 16, 2026

To parents and caregivers,

We are writing to ask your assistance in collating some information needed to better understand the travel needs and circumstances of Queensland boarding school students.

As part of our ongoing advocacy for Rural and Remote Student's education, ICPA Qld State Council are working closely with the Queensland Department of Transport and Main Roads to highlight how regional and rural families access their education facilities, and in particular regional aviation services.

We are working towards having a clear understanding of aviation's role in supporting regional connectivity, accessibility and economic development, including how rural and remote families access their educational facilities, ie boarding schools.

We would be very grateful if you could assist us by completing the following short online survey by February 27.

Thankyou for your consideration and support in this matter.

Kind regards,

Jayne Cuddihy

Travel portfolio leader, ICPA State Council
