

GLOBAL CITIZENSHIP

One of our main responsibilities is to learn to a deep level and develop our global knowledge, understanding that others have different perspectives to the ones we might have. This will allow us to make connections among our peers and the community. We aim to form connections globally and throughout our school which will help us to make informed actions as decision makers and future leaders in this ever-developing world.

INTERCULTURALISM

We learn through a curriculum where empathy, equality, open mindedness, inclusiveness, and respect are taught in all our learning areas. This encourages us to become strong people who can transfer our learning to real-life experiences and form lifelong relationships that are successful.

OUR PHILOSOPHY

- The students are the biggest priority at our school
- Everything we do is based on research and a whole school approach
- Staff are always learning

OUR VISION

Through multiple learning opportunities and high expectations students are set up for success to think on a global level and through all aspects of our learning. As helpful members of the school, we are thoughtful, creative, and ready for a fulfilling life of learning, laughter and success.

OUR VALUES

Integrity
Initiative
Respect
Global Empathy

OUR MISSION

Glen Waverley Primary School community grows global citizens through intercultural learning. Teachers help us to build a learning environment where we feel cared and supported. Research, whole school approaches and positivity create a safe space for learning, growing, and developing into future leaders.
