

# Guiding your Child's Behaviour

## FREE INFORMATION SESSION

Hinchinbrook Public School in partnership with Families Together invites mothers, fathers, carers and grandparents with children up to the age of 6 years to this information session presented by

**Petra Will Herat** – Social Psychologist, Parent Educator

Children sometimes behave in ways that are challenging to parents. As they grow up, they learn what acceptable behaviour is and how to control inappropriate behaviour. Research shows that brain development and social development are strongly linked.

Providing safe, loving relationships and experiences supports the growth of the child's brain. If parents support their children in this important period, they can lay strong foundations for their child's social skills, brain ability and their mental health.

This session aims to promote positive parenting through behaviour guidance and improve positive outcomes for children and families.

Petra will be discussing:

- What makes a child's behaviour difficult
- Developmentally appropriate expectations
- The difference between positive behaviour and misbehaviour
- Skills to help you guide your child's behaviour

**Thursday 20 June 2019**

**9am - 11am**
