

Dear Mrs Wittig,

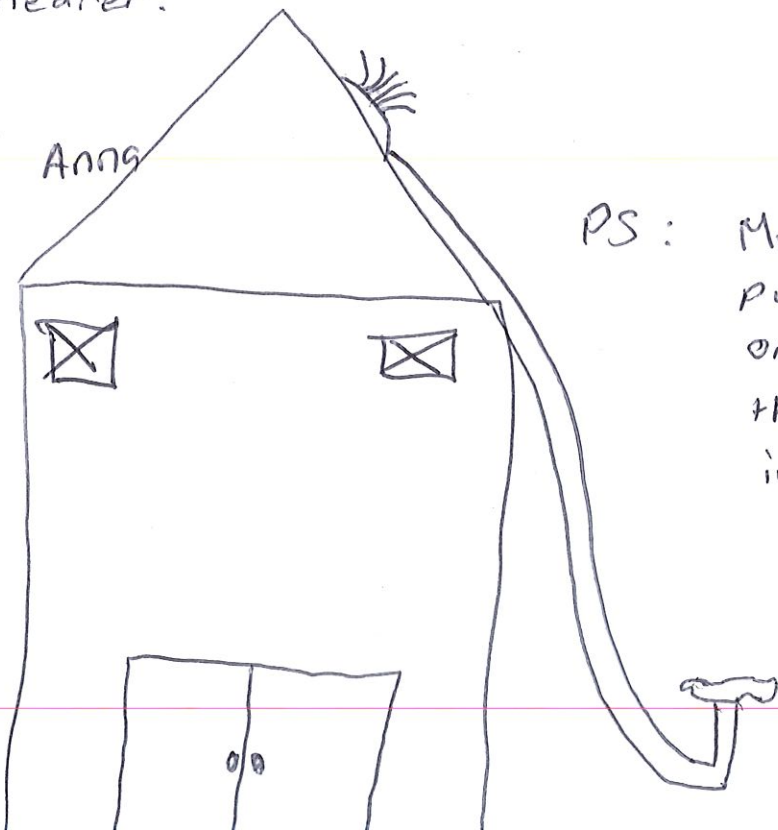

It is very tough & getting tougher to feed all our stock & somehow yesterday the yearlings knocked open the silo & all the DDC came out, so Dad got like 9 1/2 bags of it.

My family & I are worried about the bush fires because we've got a property at wandsworth & Hlangothlin.

This morning we were late to school because Camilla & I had to move all the wooden furniture away or inside the house so it wouldn't burn our house if it gets closer.

My family & I are also worried because there was lots of smoke at 'alderberry' this morning & it could just get nearer & nearer.

From Anna

PS: Mum is going to put a sprinkler on the roof & the deck - just in case.
