

# Being Neurodivergent in Science

An interactive science day for high schoolers with autism, ADHD, & more.

Are you a high school student with autism, ADHD, dyslexia, dyspraxia, or other neurodiversities? Always wanted to explore science but weren't sure of the type of supports available to you?

Spend the day at ECU Joondalup to explore two hands-on science workshops & meet other scientists who also identify as 'neurospicy'.

It's a fantastic opportunity to connect with new friends, share your love of science, & to see if studying science at ECU is right for you.

Only 25 student tickets are available to keep the group small. You can attend by yourself or bring a free parent/carer.

When  
Wednesday, 27 September 2023, 10am-3pm

How much  
\$18.50 (parents/carers free)

Location  
ECU School of Science  
Building 19, Room 143  
270 Joondalup Drive, Joondalup WA 6027
