

Disney FROZEN JR.

The production Sacred Heart preformed this year was Frozen Jr. and I was really happy as I love the movie. As a year 4 girl, I was part of the Snow Chorus.

Miss Piggato taught us some dances so we wouldn't forget them. We rehearsed every Tuesday lunchtime to ensure each dance was perfect. We hoped that our dances would be so we looked like ballerinas.

The first thing we needed to solve was the first time in forever reprise turning onto stage was difficult to do this we needed to know if this happened on the night. The first night was about to begin my heart was poundin, my face was sweating. As soon the curtain opened I gradually felt more calm and the fright was gone. I did feel nervous but Simona said to breath in and out when I was on stage.

Disney FROZEN JR.

Then, as the performance ended the audience were cheering for our fantastic dance. Something I would like to improve would be for the castle to be bit back because it was blocking our view and blocking our path but luckily Heidi told us to go to next to ribbon girls so we could get through.

At the end of the performance my nightlight was everything we achieved throughout the year. The next production we should do is Finding Nemo
