

## The latest news from Emmanuel College

Science is an exciting subject at Emmanuel College with fascinating areas of study including biology, earth and space, environmental studies, physics and chemistry. Science continues as an elective all of the way through to Year 12.

Over the course of Term 2, our Year 8 students worked collaboratively in researching and planning a comprehensive scientific investigation of their choosing. Their scientific posters and materials were displayed at the recent Science Fair held at each campus. The Science Fair provided a platform for these young scientists to share their research with their peers, families, Science teachers and the wider school community. We congratulate everyone involved in the Science Fair and our students for their enthusiasm for science and discovery.

### **Year 7 2026 – applications closed Friday 16 August**

If your child is in Year 5, and you would like them to be considered for a place in Year 7, 2026, please contact the College Registrar, Donna Grech as a matter of urgency: 8325 5100 or [enrolments@ecmelb.catholic.edu.au](mailto:enrolments@ecmelb.catholic.edu.au).

Find out more about the innovative learning programs that we have here at Emmanuel and enjoy a campus tour led by student ambassadors, by joining us at a College experience. Registration and details for each campus is available here:
