

2020

1 to 1 Digital Learning Program

School vision

East Doncaster Secondary College aims to develop independent and interdependent, reflective, global learners who strive to improve in learning and achieve our best. This includes developing the confidence to take risks, trusting self and others, using initiative and being able to adapt to change or to emerging needs and trends. We value learning with and from others, developing teams of enquiring people, encouraging meaningful conversations and valuing the contributions of others. At the same time we want to be outward looking, searching for greater knowledge and inviting others to support us in establishing a culture of curiosity.

The 1 to 1 Digital Learning Program will support us to continue the provision of the highest quality education to our school community. The effective use of ICT helps to engage students in their learning and assists in individualising student programs. It also assists students in making connections with what they are learning and with the world outside of the classroom. Tools and processes for effective communication, collaboration and creating collective meaning between teachers, students, parents and the school community is additionally enhanced through our 1 to 1 program. Improved access to computers will provide a platform for deeper understanding of concepts and information for all students at all times. It will give teachers consistent access to tasks that are whole world, big picture, instantly.

East Doncaster Secondary College continues its whole school 1 to 1 digital learning program. That is, one learning device for each individual student. The College supports a range of devices that support our minimum requirements, including Windows and macOS devices.

Program overview

East Doncaster Secondary College gives families the choice to purchase a device from the JB Hi-Fi Solutions Portal or from elsewhere that meets our minimum specifications. This way, families have the choice to take advantage of education discounts or purchase a device through a reseller of their choice. The College recognises that having a single device does not always meet the requirements or preferences of every student and their family.

The College has minimum specifications devices that must be met in order for the device to fully integrate with our IT and AV services. These requirements allow for a range of hardware and software.

End of iPad program

Between 2019 and 2020, iPads will be phased out for Year 7 - 9 students.

Students who purchased an iPad when they started at the College may continue using this device pending the purchase of a Windows 10 or macOS device in Year 10.

A Year 9 student who loses or damages their iPad is permitted to purchase a notebook to replace it.

2020

Year 7: Windows 10/macOS device

Year 8: Windows 10/macOS device

Year 9: iPads.

Year 10 - 12: Windows 10/macOS device

2021

Year 7 - 12: Windows 10/macOS device

Device ownership

It is important to note that the storage capacity of all devices is for required licensed software and student's work files. If there is some excess capacity other files may be held in storage. Nevertheless school software and files must remain priority and be available at all times without exception.

The College reserves the right to delete inappropriate programs or material and to disconnect the device from the College network for a period of time if it is used inappropriately.

The acceptable use of digital devices is explained in the EDSC Acceptable Use Agreement.

Device replacement schedule

When a student purchases a new device in Year 7, it is anticipated they will keep this until the end of Year 10 and purchase a new device for VCE. Devices over 4 years of age are likely to underperform, be unreliable and potentially impact student learning.

Device configuration

All devices will need to be configured to ensure they can operate on the EDSC network and, where applicable loaded with all of the software licensed for student use.

The cost for school devices is \$20.00 (including GST) and is included in the College Charges for all newly enrolled students. This fee pays for software to monitor and manage devices attached to the College network.

Optional peripherals

The school will not provide or specifically recommend any additional peripherals as part of the 1 to 1 Digital Learning Program. However, parents or students may purchase these outside of the program. Program support and warranty will not apply to peripherals.

Peripherals may include:

- Headphones
- Wireless mouse
- HDMI to VGA adapter

Use of school bags for added security

An important expectation is that all students will use their EDSC school bag, purchased through the College, to transport their digital devices to and from school. All students from Years 7-12 are expected to use EDSC school bags as a compulsory part of school uniform. Official EDSC School bags are available for purchase at a discounted price through the General Office.

Access to school lockers

All students will be provided an individual locker. Each student is required to provide their own quality lock to secure their property from the first day of attendance at school each year.

EDSC Acceptable Use Agreement and program payment

You are required to read thoroughly through the 'EDSC Acceptable Use Agreement' document. This agreement requires you and your child to agree to use the intranet, internet, digital and mobile technologies responsibly. Access to the EDSC network cannot be granted unless this Agreement has been formally accepted. The 'EDSC Acceptable Use Agreement' document has been provided in the induction pack of all new students to the college.

All students and their parents are required to complete and sign the EDSC Acceptable Use Agreement via Compass.

If you have any questions, please contact Karen Boyle at the College.

Technical support

General technical support is available for all devices from the Technical Support Team in the Technical Support office (next to room 107).

Warranty and repairs

If a digital device is faulty or damaged it should be taken to the IT Department for a technical assessment. Students will be given advice on the next step for repair and/or warranty claims. Repair and warranty claims are handled by third party companies. A Lenovo or HP device purchased through the JB Hi-Fi Solutions portal can be serviced on site by a JB Hi-Fi technician.

Insurance

Parents need to make prior insurance arrangements for the cost of repairs required if a device is dropped or broken.

The College does NOT underwrite insurance costs for damaged iPads, Lenovo ThinkPads or any other digital learning device. Whilst not compulsory, parents have full responsibility for insuring these devices or paying for any repairs required. Insurance claims will not be processed by EDSC IT Support or the General Office.

Frequently asked questions

1. Who can I contact if I have further questions?

Questions regarding the Digital Learning Program can be directed initially to the General Office on (03) 9842 2244. Your inquiry will be responded to as quickly as possible.

2. Will a student be using their digital learning device in every subject every day?

A student will not necessarily be required to use the computer at all times. The use of computers will take place alongside a range of learning activities. However the device is an essential learning tool that must be available to be utilised when required and therefore should be taken to all classes unless specifically advised.

3. Where will a student store their digital learning device when it is not in use?

Students must store and secure their device, in their protective case, in their locker during recess and lunch times. If students are unable to secure their device at these times they should report to the appropriate sub-school office. Students will need to store their devices in their lockers before Physical Education practical classes unless otherwise instructed by their class teacher.

4. Can a student add their own software to their device?

Yes, providing the software will not impact other EDSC users negatively. Alternate Anti-Virus products must be installed with caution as they often interfere with network and internet connectivity.

5. What is the process if my child exits the school?

Devices owned by EDSC must be returned prior to departure. Parent or student owned computers are the property of the family and therefore will be taken with the student, however any DET licensed software must be removed prior to departure. Families will be responsible for any finance agreements pertaining to the device.

6. Is my child expected to take their device home every day?

Yes, students are expected to take the device to and from school each day. This will enable them to fully utilise it at home and at school. It is expected that computers will be charged overnight ready for a full day's use at school. Parents are asked to ensure that the computer is used responsibly and cared for appropriately in the home environment. Devices must be transported within their protective cases inside the student's school bag to and from school.

7. Can I recharge my computer at school?

It is expected that a student's computer has a good working battery that has more than six hours charge. The device must be fully charged on arrival at school. Students must be aware that the use of the device outside class time may impact the ability to remain charged for all classes.

8. What happens if the battery goes flat?

Students are required to bring their devices to school fully charged every day.

9. Can other people use the device?

While it is a family owned device, it is required for the student's education, so it is recommended that it is not used by anybody else.

10. Can the device be taken overseas?

Parents are advised to check the insurance provisions they have selected on the device to determine what cover is provided.

11. Will the student software on their computer be private?

Students can expect their computers to be periodically inspected and monitored for inappropriate usage. Students and parents need to be aware that apps stored locally on the device or on school servers are not private.

12. What happens if my child leaves their device at home?

Students will be significantly disadvantaged as they will not be able to borrow computers from the College. It is the responsibility of the student to ensure that they bring their device every day. Continual failure will lead to intervention and consequences as decided upon by the College.

13. Does my home need Internet access?

No. Students will be able to access the information they need when they are at school. Even when not connected to the internet, notebook computers are still very useful tools for learning. Of course, if you have Internet access at home, you are welcome to connect the device to your Internet connection.

14. Do I need to buy a new device?

Year 7 students are expected to start at EDSC with a new device that should last for 4 years and replaced when starting VCE. JB Hi-Fi Solutions provides a portal for purchasing new devices.

Other year levels are expected to use a device comparable in age or newer.

Devices over 4 years of age are likely to underperform, be unreliable and potentially impact student learning. Older devices will be scrutinised more carefully to determine their suitability prior to enrolment.

15. Can I use one device for six years?

If parents would like their child/children to use a single device for six years, students must ensure the device is kept in good working order and the battery must be replaceable and replaced at least once in that duration. Failures due to aging hardware will be the responsibility of parent and student. Students must not be dependant on mains power to operate their computer while at EDSC.

16. Can I purchase a gaming device?

No. The device is primarily for learning.

17. Can I use my device for gaming?

While we recognise that students may want to use their device for other purposes, such as gaming, this will shorten the life of the device and its battery. It is recommended that students who are frequent gamers have a dedicated device for that purpose.

18. My child's iPad is lost or broken during Year 9. Do I have to purchase a new iPad in Year 9 given that they will be using laptops in Year 10?

A Year 9 student who loses or damages their iPad is permitted to purchase a notebook to replace it.

1 to 1 Digital Learning Program

Summary

Program options

1. Purchase a Windows Laptop or Apple Macbook through JB Hi-Fi Education Solutions.
To purchase from JB Hi-Fi Solutions please refer to Attachment C for purchase details.
2. Purchase a Windows Laptop or Apple Macbook through an alternate reseller.
It is mandatory that the device meets the EDSC requirements (Attachment B).
3. Bring a Windows Laptop or Apple Macbook.
It is mandatory that the device meets the EDSC requirements (Attachment B).

Required accessories

1. A device bag or slipcase that protects the computer from damage caused by dropping

Choose the option that best suits your needs

You are encouraged to choose the option that best suits your personal needs. If purchasing through the JB Hi-Fi Solutions parents must complete their purchase online (see further information below). Devices will be configured on nominated days.

Please refer to the Digital Learning Program timeline for key dates.

Attachment A

Provided support

1. Required Software will be available for download and Install
2. Software and Configuration support will be provided on a best effort basis.
3. Students will retain full right to the computer, allowing for the installation of additional peripherals and software.
4. Warranty claims will be managed by parent/student (except purchases from the JB Hi-Fi Solutions portal for Lenovo and HP).
5. Hardware repair not available on-site/campus (except purchases from the JB Hi-Fi Solutions portal for Lenovo and HP).
6. Insurance claims will be managed by parent/student.

Attachment B

Parent/student selected devices

Required hardware specifications

Parent or student selected devices are required to adhere to the following guidelines:

1. Device Type: Laptop, notebook or tablet capable of supporting Windows 10 or macOS.
2. Device Age: A student will purchase a new device in Year 7. It is anticipated they will keep this until the end of Year 10 and purchase a new device for VCE. Devices over 4 years of age are likely to underperform, be unreliable and potentially impact student learning. If parents would like their child/children to use a single device for six years, students must ensure the device is kept in good working order and the battery must be replaceable and replaced at least once in that duration.
3. Storage: Minimum 128GB. (Recommended: SSD/Flash Storage)
4. Screen Size : 10.8” to 15.6” (Recommended: 11.6” – 13.3”)
5. Weight : Under 2kg (Recommended: under 1.6kg)
6. Battery Life : 6+ hours (During general use, not idle)
7. Input : Physical Keyboard, attached or detachable
8. Ports : HDMI, 1x USB, 3.5mm Headphone Jack
9. Wireless Network : Wi-Fi supporting wireless “N” or “AC” standard (Recommended: Intel Network Adaptor with “AC” support)
10. Operating System: Microsoft Windows 10 64Bit (English Language Only) or Apple macOS 10.13 or 10.14 (English Language Only)

Devices that do not meet these requirements will be deemed inappropriate and not be supported for use at EDSC. While permitted, 15” laptops are not recommended as they are unlikely to meet weight and battery life requirements. Be sure to seek advice before making a purchase.

These devices are not supported:

- Windows 10 S Mode
- Gaming devices

Minimum Required Software (Available for Download)

1. Office Suite : Microsoft Office 2016.
2. Web Browser : Google Chrome.
3. PDF Reader : Adobe Acrobat Reader DC.
4. Anti-Virus : System Centre Endpoint Protection.

*Additional requirements will be determined by chosen subjects/electives and communicated by teaching staff.

Refer to the 1-1 Digital Learning Program Timeline for information on device enrolment and software installation.

Further details and program updates will be posted on Compass School Manager: <https://edsc-vic.compass.education/>

Attachment C

Purchasing a device through JB Hi-Fi Solutions

JB Hi-Fi Solutions Portal

<http://www.jbeducation.com.au/byod/>

(Your school code is dlp#2020)

Place an Online Order via the JB Hi-Fi Solutions Portal (refer to the above link) for one of the recommended devices and accessories. The Portal will be open on Monday 7 October 2019. The Portal will remain open throughout the year. Parents should note that devices purchased after December 2 may not be available for student use until after the commencement of Term 1 classes.

As outlined on the Portal, there are 4 payment options for these devices. BPay, Credit Card, Flexi Rent and payment directly from a designated bank account (EFT). Prices below are subject to change.

1. Select Preferred Laptop (pricing available on JB HI-FI Solutions Portal)

- Laptops available: Lenovo, HP, Microsoft Surface, Apple.

2. Select Accessories (pricing available on JB HI-FI Solutions Portal):

3. Select warranty and insurance options

- Please note that any insurance claim will incur a \$100 excess (excluding AppleCare+).
- Parents have full ownership of the including full responsibility for insurance. Additional Insurance is an optional cost.
- Please note that specifications and pricing may change without notice.

1 to 1 Digital Learning Program Timeline

October 7	JB Hi-Fi Solutions Portal Opens
November 26	College charges due (Years 8-12)
December 10	College charges due (Year 7)
January 20, 21,22,23 and 24	Year 7 and Year 10 Device Configuration. Devices must be delivered to the IT Office at EDSC between 9am and 4pm for assessment and configuration. Directions will be provided on the day for device enrolment and software installation.
