

# Returning to school after COVID

We will be going back  
to school very soon.

I might feel unsure and nervous about what to expect.

But it's OK.  
I will be very safe at school.

These are some changes that will be made to  
keep everyone safe.

I will be picked up and dropped off at Benny Court, Hawthorn Street or the SLA area.  
I will always use the same area each day.

My parents cannot come into the school.

But that's OK, because all my friends  
and teachers will be there.

There will also be hand sanitiser  
for me to use.

When I need to wash my hands, I can do this in the toilet block. When washing my hands, I do this for 20 seconds.

# I should wash my hands...

- **After I go to the toilet**

- **Before and after I eat**

- **After playtimes**

I should not touch my face or anyone else.

We need to make sure surfaces are kept clean at all times.

If I am sick, I will need to stay home.

I might see adults wearing masks around the school. When people wear masks, I will only be able to see their eyes. In Grade 3-6 the students will be wearing masks inside too.

If I need to cough or sneeze,  
I must use my elbow.

✔ Right

The school will be  
cleaned each  
night by a  
professional  
cleaner.

We will be playing outside. We will also be going outside as a class regularly to play games and complete activities.

Remember, we are all in this together,  
so be kind to one another.
