- **University / TAFE Open Days 2025 – late July and throughout August**
- **Year 12 VTAC timely applications – late July throughout August and September**
- **VTAC SEAS and Scholarship applications – throughout August and September**

Career as Orthotists or Prosthetists

The Good Universities Guide states that *Orthotists or Prosthetists design, build, fit and repair splints, braces, callipers, artificial limbs and related appliances to restore function or compensate for muscular and skeletal disabilities.*

Orthotists/Prosthetists work within major teaching hospitals, rehabilitation centres and private practice. They may also work for commercial companies that design and manufacture devices for people with disability.

[Good Universities Guide - Orthotist and Prosthetist](#)

La Trobe University offers the 4-year [Bachelor of Prosthetics and Orthotics \(Honours\)](#) which focuses on training students to become a qualified health professional with expertise in treating people's physical and functional limitations.

From first year, students undertake clinical placements and experiences both on campus in La Trobe's prosthetic and orthotic facilities and at external sites. Students study *anatomy, physiology, biomechanics and prosthetic and orthotic prescription, design and fabrication.*

The Honours year is offered in two streams: industry and research.

Students complete either a major industry-relevant honours project or a research honours project in the final years of the course.

Graduates of the course can go on to working in Public health (hospitals, aged care facilities and rehabilitation centres, or Private practice (using skills in private prosthetic-orthotic facilities and other agencies), or Research and design (graduates may work for commercial companies that design and manufacture devices for people with disability.)

Accounting and Business Information Technology (Professional)

Only on offer to domestic students, and offering a premium experience, the Bachelor of Accounting and Business Information Technology (Professional) is a prestigious industry degree with a 12-month full-time paid work placement.

Students in this course learn how to record and analyse business activities, guide investment decisions, develop operating strategies, evaluate business performance and design, build and implement software solutions.

This degree is degree that's professionally accredited including by Chartered Accountants Australia and New Zealand (CA ANZ), and Australian Computer Society (ACS).

Find out more at [Bachelor of Accounting and Business Information Technology \(Professional\)](#).

Note: Students more keen on accounting in particular, are recommended to enrol in the [Bachelor of Business \(majoring in Accounting\)](#) or the [Bachelor of Accounting](#).

The Difference between Financial Planning, Finance, and Accounting

Financial planning, finance and accounting are all offered as majors in the [Bachelor of Commerce](#) at Deakin. When choosing between these options, it is important to fully understand where each course leads.

What is financial planning?

Financial Planning is a pathway to becoming an accredited financial planner. Financial planners help people devise a plan to achieve financial security and meet financial goals.

As well as developing strategies and recommendations, financial planners act as life coaches, educators, and mentors.

It's a profession that combines an interest in finance and investing together, with a love of working with people and while a level of numeracy skill is required, interpersonal skills are the primary focus. Graduates work in small and large financial planning organisations or set up their own practice.

What is finance?

Finance specialists have an in-depth understanding of the structure and operations of financial markets in Australia. They typically work within large organisations at the corporate level in roles such as treasury, project funding, investment banking, financial analysis utilising their strong numeracy and analytical skills. Careers in finance allow graduates to work across industries and provide specialised advice to aid complex business decision-making.

What is accounting?

Accounting is a pathway to becoming an accredited accountant. Businesses and individuals rely on accountants to assess their financial situation and advise on financial dealings. Graduates work with organisations compiling, analysing, verifying and preparing financial records. Strong numeracy and analytical skills are required for this role and, depending on the size and type of organisation, accountants may work with clients or solely with internal stakeholders within a business.

Experience a Day in the Life

See what Uni is actually like at Experience La Trobe. Join a day of workshops, classroom activities, and faculty visits in the study areas you are interested in. There are 12 workshop options to choose from.

Date: Tuesday 8 July 2025

Time: 9.00am – 2.00pm

Accountants & Advisors

School Leaver and Undergraduate Program 2026

Are you ready to discover endless possibilities?

SW is a mid- market accounting firm operating in Melbourne, Sydney, Brisbane and Perth with over 400 people and 41 Partners nationally. Its purpose is building lasting relationships with its clients and people to achieve shared success. SW prides itself on providing its employees with an environment that supports their growth and wellbeing. *Plus, we have fun, we have weekly lunch, social sport and social club events to make sure we connect with our colleagues.*

SW has been recognised as a Graduate and Intern Employer of Choice for multiple years running as compiled by the Australian Association of Graduate Employers (AAGE) and the Australian Financial Review.

SW has newly created two **Undergraduate Programs**, specifically designed for students currently completing Year 12, and currently studying *economics, accounting, or business management*.

The **School Leaver program** (non-degree pathway) is a 2-year undergraduate initiative combining full time work with structured education through Chartered Accounting Australia and New Zealand (CAANZ) via direct entry (i.e., without completing a degree). Following completion of the program, students will satisfy the requirements to enter into the CA Program (Graduate Diploma of Chartered Accounting). This program allows students to bypass university, fast-tracking their Professional Services career and saving on university fees.

The **undergraduate program** (university pathway) is a 4-year undergraduate initiative combining part-time work with structured education through university. This allows students to work in a field relevant to their university degree, applying concepts from their education directly into the workplace.

Applications are now open, and successful applicants will commence in March 2026. Find out more at [SW Accountants School Leaver and Undergraduate Program 2026](#).
