

MARCH

It wasn't long since we had our last holiday day program, and yet here we are getting ready for our Jungle Adventures. This term was an exciting time for us, as we introduce our new project manager Kim Taylor. We are excited to have Kim join our team as we venture through new ideas to revamp our space. It has been a great opportunity to meet parents during our monthly barbecues. I wanted to take this opportunity to remind parents that our service is free for all Yarrabah Families and we look forward to having your children attend our Program. A reminder to parents, pick up and drop off points are at the front of the school with lots of signs to direct you to our service number. As we get closer to our Holiday program adventure, I encourage all parents to label your children's items. As you may have seen, we are super excited for the five excursions this Holiday program.

Arts and Crafts

TheirCare
where kids love to be!

Our program this term has been primarily focused on animal theme. We go really messy with glove and fork painting, making masks and paper planes.

I would like to introduce myself to families. Three weeks ago, I replaced Lucy as the Yarrabah School OSHC Project Manager and represent Yarrabah to manage and support TheirCare to run the very best program possible for our students. Prior to this, I spent 6 ½ years working in reception at Yarrabah and will be familiar to some of you. Please contact me on 0459 868 746 about any concerns you might have or ideas to make the program even better.

Kim Taylor
OSHC Project Manager
Yarrabah School
