

Basketball is better than Netball  
I think basketball is better than Netball here  
are some reasons to persuade you.

Basketball is more active because everyone on  
the court can shoot. But for Netball only like  
2 people can shoot. You can also dribble in  
basketball whereas in netball you can't  
and can only pass. In basketball you can  
defend and block people but in Netball  
you have to stay 3 feet away and  
can only put your hands up.

Also NBA is more popular because  
there are more professional teams. NBA  
has 30 teams but NBL has 9 there's  
a big difference. More NBA stars are  
known other than netball stars because  
I think you could name some NBA players  
but what about netball players?

Lastly it helps with your hand eye  
coordination because you can dribble and  
ankle break people. Also you can shoot and  
it helps with your form and muscle  
memory.

That's why I believe basketball is  
better than netball.
