

KELLY CLUB AITKEN NEWSLETTER TERM 2

At Kelly Club we were very busy creating, exploring and doing all kinds of fun things! Our themes for the past fortnight were Friendship and Year 4's pick. During our friendship week the children participated in group games, jewellery making, creating posters, watching a movie and completing a worksheet called "Find a friend who". We really wanted to encourage the children to create new friendships with their peers and find out more about each other.

This week it was the Year 4 student's week to pick the activities. Each term we ask each grade to come together and make a choice of activities they would like to do for the week. The Year 4's picked sports, diamond art, movie, Minecraft activity, colour competition and culture day. The children were able to bring in something from their culture and share it with us during our group discussion time. It was a great way to get to know the children more and learn about their cultural backgrounds.

We are also pleased to announce that Author, Illustrator and artist Leigh Hobbs, will be joining us for a workshop during our school holiday program on Wednesday 22 June. If you would like your child/ren to attend, please get in contact with us to enrol your child and/or make a booking for this day.

Reminder:

Please remember to make bookings for the school holiday program. Excursion and Incursion days have limited spots available so please get in quick if you would like your child to attend those days.
