Help Launch a Young Person's Career in Construction

Do you know a construction business looking to invest in the next generation of skilled workers?

St Pius X is seeking an employer partner in the **Construction Industry** to support a motivated student through a **School-Based Apprenticeship and Traineeship (SBAT)** program in partnership with **TAFE NSW**.

What is an SBAT?

A School-Based Apprenticeship allows students to begin their apprenticeship while completing Year 11 and Year 12. Students gain valuable industry experience, develop practical skills, and work towards nationally recognised qualifications.

Employer Commitment

An eligible employer would provide:

- **1 day of paid work each week**
- Support for the student attending **1 day of TAFE NSW training each week**
- Flexibility for the student to attend school on the remaining **3 days**

The SBAT program runs across **two years (Years 11 and 12)**. Upon successful completion of school, the student can transition directly into the **second year of a full-time apprenticeship**, providing employers with a well-trained and job-ready apprentice.

Interested?

If you are interested in employing an SBAT student, or if you know a family member, friend, colleague, or business owner who may be interested, we would love to hear from you.
