

# Internet Safety

Click Clever. Click Safe.

Internet safety guidelines for children to follow and learn during Remote Learning at CSPA.

The internet is amazing when used safely and correctly.

Here are some simple rules that will help you make sure it stays amazing so that it plays a healthy part of your life.

# Remote Learning

At CSPS we use Seesaw for our remote learning. Teachers post work and activities for you to do. Seesaw has filters requiring teachers to approve posts before they can be viewed by parents or students.

If you notice another student post something silly or rude make sure to tell an adult or your teacher straight away.

# Remote Learning

While doing remote learning some activities may require you to use the Google platform and use the internet for research, games or activities. While teachers can control content on Seesaw, we can not do the same with other areas of the internet. This is why it is some important for all families to know about the importance of Internet Safety.

# Remote Learning

Home computers or computers borrowed from school should always have an Internet Safe Search Filter installed. Computers even from the school need to be checked to ensure this filter is on.

Parents may even use a program like Qustodio to keep you safe while you use the internet. The school website has more information about how to Install Safe Search Internet filter.

# Social Networks

Do you use any of these and did you know the age restrictions?

## Age Restrictions for Social Media Platforms

Twitter  
Facebook  
Instagram  
Pinterest  
Google+  
Tumblr  
Reddit  
Snapchat  
Tik Tok

# Social Networks for Under 13s

Have you heard of any of these social networks?  
They have been designed with extra safety for under 13s.

Playkids Talk

Chatfoss

CBBC App

# Click Clever Click Safe

The 'Click Clever Click Safe' campaign has three simple rules to follow. Have a think about what each one could mean and then click on the picture to see if you are correct...

Zip It

Block It

Flag It

Next, find out about cyberbullying

# Zip It

You should never speak to strangers online!  
Really think twice about everything that you say in posts  
anywhere on the internet. Don't give away your real  
name, address or even which school you go to or  
which clubs you are in.

[Back to Click Clever Click Safe](#)

# Block It

- If something looks odd, it probably is and you should tell an adult!
- Block and delete emails from anyone you don't know.
- Do not open any attachments from people you don't know as it could be a nasty virus!
- If anyone sends you a nasty email or message, don't get into a discussion, just block them and then tell an adult.
- This applies to all devices that use the Internet, e.g. Games consoles (Xbox or PlayStation) and tablets (iPad).

[Back to Click Clever Click Safe](#)

# Flag It

Flag up anything that is not right.

This means tell someone you trust – they might be able to help get something done about it.

These things might include:

- Cyberbullying
- Someone asking to meet you in real life
- Anything that upsets or worries you
- Anything you think might be illegal

# Cyber Bullying

Cyberbullying is no different to bullying in real life. You don't need to put up with it!

- If someone says something that upsets you, tell someone you trust about it, such as a teacher or parent and block the bully.
- Remember that typing something nasty in a message to someone is just as upsetting as saying it to their face. Think before you send!
- Keep evidence to show your trusted adult. You might even need to do a screenshot.

The main thing to remember is:  
Be smart and safe by making the right choices.

If you are ever unsure,

**ask for help and advice.**

Do not deal with it alone!

Stay safe during Remote Learning with  
CSPS!
