

OSHClub - Community notice regarding staff vaccination

This letter is to certify that all OSHClub team members are fully compliant with the current Victorian Public Health Order which states;

- All employees must have received one vaccination to be eligible to work in an OSHC service from 18th October 2021 (or have a booking within the week of 18th to 24th October 2021);
- All employees in Victoria will be fully vaccinated by 29th November 2021 to be eligible to work in an OSHC service (unless they have a medical exemption).

The health and safety of our children, families and communities that we operate in are our highest priority. We have COVID safe plans in place to minimise the spread of COVID-19, and we have systems and processes in place to ensure we are fully compliant with Government vaccination regulations.

The Department of Education has advised that Before and After School Care providers are responsible for checking the vaccination status of team members to ensure compliance and that Principals should direct questions about vaccination status to the service Partnership Manager.

For further information regarding our privacy policy, please call our COVID-19 hotline on 03 8564 9050 or email covid19.staffsupport@junioradventuresgroup.com.au

Kind Regards

Chris Twible
