**I recommend the book 'Are you there god? It's me, Margaret.' Because it is an amazing book for mostly girls ages 10+ as it has a few more mature, girly scenes in it. It also is a book that keeps your interest the whole way through and that's why I recommend this book.**

I chose wolf girl because when I read it, it took me to a whole new world of imagination, wonder and adventure. Wolf girl really inspired me to stop listening to what others say and to just live life and put up with the challenges it throws at you.
