Dear Anthony Sokol,

This letter is intended to make you aware of the excellent program currently being delivered at your College. The VACC want to acknowledge that outstanding work that your VET in Secondary Schools team are delivering. With special mention given to Chris Larkin- Head trainer, Automotive Program.

The quality of the training and assessment being offered by Copperfield College is directly reflecting the needs of industry. The technical aptitude displayed by students coming out of this Cert 2 program is of an exceptional level. Coupled with an above average level of general employability, which we know is a direct reflection of students undertaking the course with your College.

We want it known that in 2018 four of your students gained full time apprenticeships with us at the VACC upon completing year 12 at your College. This year it is already at six students, potentially with more to come. We know that others have gained meaningful employment within the automotive industry by ways of direct employment with numerous businesses. These numbers are something that your College should be very proud of.

As a sign of appreciation, we would like to donate a full toolbox kit to the value of \$1500.00. We will organise this in the coming days with Chris from the automotive department.

Yours sincerely,

**Chris Whyte**  
Field Manager
