Don't forget to also check out our PVCC Careers website for important information for students and parents. You can find our site at: <https://careers.pvcc.vic.edu.au>

Items in the *Career News* include –

- VTAC Key dates
- Deakin Campus tours
- University of Melbourne – Hands on Engineering and IT School holiday workshops
- Differences between a Traineeship and Apprenticeship
- ACU – Talk with Industry Webinars
- Box Hill Institute – FREE Nursing Bootcamp
- RMIT – School holiday Campus tours
- William Angliss – School holiday events
- Westpac – Young Technologists Scholarship
- Teaching degrees in Victoria

Dates to Diarise in Term 4

- Year 12 VTAC late applications – 28 September to 3 November
- VTAC SEAS and Scholarship applications – due 6 October

Reminder: VTAC 2024 Upcoming Key Dates

Timely applications through VTAC	Thursday 28 September 2023

Also, students applying for courses that have **essential requirements** (i.e., submitting a folio, a pre-selection kit, arranging an interview, etc.) are reminded that failure to meet the deadline date for these means students may no longer be eligible for selection into their desired course.

Students eligible to apply for **SEAS** are also encouraged to apply for **VTAC Scholarships**.

STEM Hub

[Stem Hub](#) a digital platform connecting students and industry. This hub is open to all university students and graduates from any universities who have studies **science, technology, engineering, and/or mathematics**. Students who sign up get access to leading industries and potential future employers.

Current senior students planning to study in one of these fields are encouraged to browse this link and flag this platform as a valuable resource once at university.

Catch up on ADFA Open Day 2024

Students who missed the Australian Defence Force Academy's (ADFA) virtual or campus Open Day, can watch the highlights on [ADFA On Demand](#). This includes the UNSW live information session about their Arts, Business, Cyber Security, Engineering and Computing, and Science degrees. Visit the [Virtual ADFA Open Day](#) to learn more!

Studying Neuroscience at Swinburne

Knowing how the brain works is vital to understanding behaviours and actions.

Neuroscience is an opportunity to gain the knowledge and skills to scientifically understand the functions of the human brain and nervous system. Future careers can be found in a range of health- and science-related environments.

Swinburne University offers the study of **neuroscience** through a number of courses, including the following:

- [Bachelor of Health Science \(Professional\) with a major in neuroscience](#)
- [Bachelor of Health Science with a major in neuroscience](#)
- [Bachelor of Health Science \(Honours\)](#)
- [Master of Health Science \(Research\)](#)

Diploma in General Studies (DiGS)

The Diploma in General Studies (DiGS) gives students a sample of various University of Melbourne degrees and provides a pathway to further tertiary study.

Open to domestic students, this one-year course provides students with the opportunity to study a wide range of subjects from Science, Commerce, Design and Agriculture - providing some students with guaranteed entry into a University of Melbourne degree based on their weighted average mark. **DiGS** provides a pathway to one of the following University of Melbourne bachelor's degrees:

- Bachelor of Agriculture
- Bachelor of Biomedicine
- Bachelor of Commerce
- Bachelor of Design
- Bachelor of Science

On-demand Webinars at Deakin

When it comes to choosing a university course, gathering information can be time-consuming and overwhelming. That is why Deakin University has created a series of **on-demand webinars**. Covering all the study information students need, the webinars are available in one convenient location and accessible 24/7, so students can watch them whenever and wherever they like. The comprehensive suite of webinars covers more than 50 undergraduate and postgraduate study areas, as well as other important information about how to apply and studying online.

These can be accessed at [On-demand Webinars](#).

News from the University of Melbourne

➤ **Hands-on Engineering and IT School Holiday Activities**

Year 10 students are invited to participate in one or more of a range of interactive workshops on engineering and technology concepts and issues.

Date: Wednesday 27 September and/or Thursday 28 September

Venue: Parkville Campus

Registration is essential, and students should note that they must create a UniMelb account to register. For more information on the workshops and to register, visit [Hands-on Engineering and IT Workshops](#).

Project Management Courses in Victoria in 2023

There are so many similar definitions or statements of what a project manager does, and one useful website* states that project managers *ensure the project is completed on time and within budget, that the project's objectives are met and that everyone else is doing their job properly. Project managers oversee the project to ensure the desired result is achieved, the most efficient resources are used, and the different interests involved are satisfied.*

The website goes on to mention the typical industries project managers work or are employed in –

- Construction companies
- Architects
- Software producers
- Commercial retailers
- Engineering firms
- Manufacturers
- Public sector organisations
- Aviation

➤ **Pathway to Engineering**

The Monash Bachelor of Science can be used as a pathway into graduate Engineering at Monash. If you love science and also have an interest in engineering, keep your options open and be on track to earn both a Bachelor of Science and a Master of Professional Engineering.

Students keen on studying science but also hoping to keep engineering as a possible career option, can choose up to **four** Engineering Foundation units to study as electives in the second and third year of their science degree. Students can choose from one of the [five engineering masters specialisations](#) select the Engineering Foundation units that relate to the discipline/s they are interested in, and that will enable them to fast track their Masters.

In the final year of their science degree, provided the entry requirements are met, students can apply for graduate entry into the Master of Professional Engineering. The successfully completed Engineering Foundation units can be credited to the Master of Professional Engineering and students can commence their Masters in either the start or midyear intake and be on track to complete their engineering masters in 2.5 years instead of 3 years.

Find out more at [Graduate entry - Master of Professional Engineering](#).

Westpac Young Technologists Scholarships

We partner with universities, Westpac, and the community to invest in the individuals with the ideas and drive to shape Australia.

Westpac offers the [Young Technologists Scholarship](#) which is designed specifically for high school graduates who are passionate about studies in STEM and are eager to explore its potential for good. Recipients receive \$20,000 over three years to really inspire their thinking but are also assisted in developing into a strong leader through the Disruptive Leaders Program, which includes five days in Asia as part of an international learning experience (pending no travel restrictions). Recipients of this scholarship also have access to paid internships and inspiring mentors. Best of all, they become a lifelong member of the Westpac 100 Scholars Network: an inclusive group of some of the brightest young minds in Australia.

The Westpac Young Technologist Scholarship program is offered at the following universities:

- Murdoch University
- Queensland University of Technology
- RMIT
- Western Sydney University
- University of Wollongong

Applications open in September 2023 and close in January 2024. Students are urged to browse [Westpac Young Technologists Scholarship](#) to find out more.

Army Logistics (ADF) Gap Year

The [Army Logistics \(ADF\) Gap Year](#) role is a unique opportunity for students to experience life in the Army, without needing to make a long-term commitment. The skills obtained through this program will provide them valuable work and life experience, which are transferable to civilian employment opportunities. It enables Gap Year members personal and professional development for their next endeavour.

As part of one of Australia's largest supply chains, Gap students ensure that soldiers have the food, equipment, ammunition, and fuel they need to complete their mission. They play a key role in delivering supplies to the right location at the right time - whether they are in the warehouse sorting inventory or behind the wheel of high performing Army transport vehicles.

Explore more about the [Army Logistics \(ADF\) Gap Year](#) or contact Defence Force Recruiting on [13 19 01](#) for more information.

The Federation University Co-operative Model

Federation University Australia is becoming Australia's first co-operative university.

The university has made a commitment to embed co-operative learning in every university degree and TAFE course by 2025. Co-op involves designing and delivering education in co-operation with employers.

Co-op benefits students by connecting them to employers and industries throughout their studies and giving them access to new opportunities. Co-op also provides a clear pathway from enrolment to graduation and employment – and the foundation workplace skills needed to hit the ground running.

Every Federation Co-op undergraduate degree will include:

- foundation workplace skills as well as the technical skills to prepare students for their future careers
- industry experiences that contribute directly to course credits and graduation
- a range of workplace learning opportunities to suit our students and employers including
 - paid cadetships
 - extended internships

- shorter learning in the workplace opportunities
- a team-based project for an industry partner

Students are encouraged to browse [Fed Uni Co-operative Model](#) to find out more.

News from ACU

➤ **Bachelor of Physiotherapy through the ACU Guarantee**

ACU has just recently announced that the [Bachelor of Physiotherapy](#) at its Ballarat Campus will now be taking applications through the [ACU Guarantee](#).

Offers will be made during the second round on **Friday 22 September 2023**.

The ATAR for Physiotherapy is 86.90 for Ballarat – if students apply for this course through ACU Guarantee and are successful, the ATAR requirement is removed completely, along with the English prerequisite.

➤ **Bachelor of Educational Studies**

The ***Bachelor of Educational Studies*** has been designed for domestic *and* international students who are passionate about becoming teachers, but do not achieve the entry requirements to go directly into their desired pre-service teaching degree.

Although the 3-year ***Bachelor of Educational Studies*** allows students to gain a qualification to work in education-related fields other than teaching, it is also designed as a pathway for students who wish to consider future study in teaching in Early Childhood and Primary Education. Eligible students who successfully complete their first year of study (subject to meeting certain progression and non-academic requirements) may apply for transfer into the second year of the Bachelor of Education suite. Students who complete the three years of study may be eligible to progress to a postgraduate Initial Teacher Education qualification.

Winter Discovery Nights

Box Hill Institute will be hosting two ***Winter Discovery Nights*** – instead of an Open Day. These two events are a great way to meet teachers, speak with industry experts and explore the campuses so that students can make an informed decision about what they want to study after they finish school.

- **Box Hill Campus:** Tuesday 22 August, 3.00pm – 7.00pm
- **Lilydale Campus:** Thursday 24 August, 3.00pm – 7.00pm

Courses offered by AIM – Melbourne Campus in 2023

The [Australian Institute of Music \(AIM\)](#) is a private music school totally dedicated to the pursuit of excellence in music – be it composition, performance, or even management.

AIM has campuses in Sydney and Melbourne, and courses offered in Melbourne include:

[Bachelor of Entertainment Management](#) – a 3-year course for anyone with a passion for the inner workings of the music and entertainment industry.

[Bachelor of Music \(Composition\)](#) – a 3-year course providing a creative environment for composers, songwriters, electronic musicians, film and screen composers, game composers and music producers to gain their own unique blend of technical, musical, and professional skills.

[Bachelor of Music \(Performance\)](#) – a 3-year course great for instrumentalists or vocalists looking to become a highly accomplished musician, both as a soloist and within an ensemble setting.

[Bachelor of Music \(Music Theatre\)](#) – a 3-year course developing skills in four core disciplines: Voice, Acting, Dance and Musicianship. Students will learn to develop the ear of a musician, the body awareness of a dancer, the imagination of an actor and a thorough understanding of the music language.

Studying a Common First Year in Engineering

Three Victorian universities offer a common first year in their Bachelor of Engineering (Honours) degree. The advantage of a **common first year** is that students get to explore various specialisations in their first year, preparing them to choose an engineering field in their second year. So, students get a taste of the various engineering specialisations on offer before deciding which to pursue from the second year.

Monash University - [Engineering](#)

Monash offers ten engineering specialisations and, all but the Biomedical Engineering specialisation, participate in the common first year.

RMIT University - [Engineering](#)

RMIT offers twelve specialisations, all of which are accessible after the common first year.

Swinburne University - [Engineering](#)

Swinburne offers eight engineering majors, and in the common first year, students complete a number of core units that assist them in choosing their major.

Studying the Bachelor of Applied Innovation with another Degree

In 2023 Swinburne University introduced the [Bachelor of Applied Innovation](#) to be studied in conjunction with a number of other degrees. With just one extra year, students get to graduate with a double degree.

Depending on the degree a student chooses to study alongside the Bachelor of Applied Innovation, various skills will be developed, including –

- a student's collaboration, creativity, and complex problem-solving skills in real-world contexts.
- how to apply innovation toolkits, prototype solutions and participate in challenges such as innovation sprints inspired by their passions and interests.
- gaining the practical and technical skills to think strategically about how to employ innovative ideas in their studies and in the broader society.
- learning how to make decisions of impact, based on analytical and strategic thinking, human understanding, and respect for future generations – with supporting technological know-how.
- undertaking placements, internships or industry-based project work, and benefit from interdisciplinary, experiential learning. Students will tap into their creativity, curiosity, and leadership potential as they gain the skills to build a better future.

Students are encouraged to browse the link above that provides more details about the participating courses, and the core and major units on offer in the Applied Innovation degree, as they do differ from double degree to double degree.

New Design (Architecture)/Property and Real Estate Double Degree

From 2024 Deakin will be offering the ***Bachelor of Design (Architecture)/Bachelor of Property and Real Estate*** double degree which will blend the creative possibilities of architectural design with the skills needed to build a successful career in the property sector. Students will graduate with a unique cross-disciplinary skill set that can set them apart in a growing industry.

In this course, students will discover architectural ideas through cutting-edge content and build complimentary skills in property valuation, development and more. They will develop their creativity and gain a practical understanding of the built environment and its relationship with the community through meaningful and sustainable design.

The Bachelor of Design (Architecture)/Bachelor of Property and Real Estate will be available from trimester 1 2024, at Deakin's Geelong Waterfront Campus. Visit the [Bachelor of Design \(Architecture\)/Bachelor of Property and Real Estate](#) to find out more.

Bachelor of Business Administration

To keep up with strong industry needs, companies are looking for graduates with strong business administration skills to improve day-to-day operations.

This course focuses on job readiness, to give students the practical skills they need to operate effectively in business environments. In this course, students can choose from the following majors, extended majors and minors. Some are only available as minors or only in certain locations, so click through to see the full details.

- [Accountancy](#)
- [Business administration studies](#)
- [Economics and business decisions](#)
- [Finance and economics](#)
- [Management practice](#)
- [Marketing and communications](#)

The VCE requirements are Units 3 and 4: a study score of at least 27 in English As An Additional Language or at least 25 in English other than EAL, and Units 1 and 2: satisfactory completion in two units (any study combination) of Maths: General Mathematics, Maths: Mathematical Methods or Maths: Specialist Mathematics or Units 3 and 4: any Mathematics. An ATAR around 70.00 is required.

Difference between an Apprenticeship and Traineeship

What's the Difference between an Apprenticeship and Traineeship? Which one should a student apply for? Both apprenticeships and traineeships offer a structured pathway into a career of choice. However, there are three key differences – *range of occupations, completion time and legal requirements*.

The Three Key Differences

As indicated above, there are three key differences between apprenticeships and traineeships. Each of these should be carefully considered when deciding which is the right option.

Range of Occupations

While traineeships are available on a broad range of occupations, apprenticeships are offered on skilled trades only. For example, you can complete a traineeship in a diverse set of fields including:

- Business (e.g., business administration, marketing, accounting)
- Technology (e.g., information technology, telecommunications, digital media)
- Trades (e.g., plant operator, warehouse operation, hairdressing).

Apprenticeships are also offered across a broad range of industries, including:

- Building and construction (e.g., carpentry, bricklaying)
- Electrical (e.g., electrician, electrical fitter)
- Engineering fabrication (i.e., boiler maker/ welder)
- Engineering manufacturing (i.e., fitter and turner)
- Horticulture (e.g., parks and gardens)
- Plumbing (e.g., plumbing and gas fitting or drainage).

Completion Time

Apprenticeships are a full-time commitment and are awarded after a fixed period of time. For example, an Electrical Apprenticeship will generally take four years, however this can be shortened by up to 6 months, depending on circumstances.

Traineeships can be full-time or part-time. Because traineeships are competency-based, completion is dependent on achieving and demonstrating a level of competency in all the required modules. In general, a traineeship is usually completed within one to two years, but it may take more or less time depending on the role, employee and number of hours worked. On the other hand, apprenticeships are awarded after a set timeframe, which for most trades, is four years.

Legal Requirements

When a student signs up for an apprenticeship, the level of commitment made by both them and their employer is different to a traineeship. As an apprentice, upon signing the contract, their employer is committing to employ the student for the full term of their apprenticeship – and if they sell the business while the apprentice is working towards completion, the new owner must continue with the training contract. After the probationary period is up (usually 90 days) the contract can be cancelled, but all parties (apprentice and employer) must agree.

As a trainee, the employer must keep the trainee on for the term of their traineeship, however, either party can cancel the contract before it's complete (mutual agreement is not needed). In addition, if the business is sold, the new owners are not obliged to continue your employment.

Understand the Differences Before You Commit

Both apprenticeships and traineeships provide a fantastic way to learn on the job – and as an added bonus, one gets paid for it too! So, when weighing up the two, it is important to consider the field one wishes to pursue, how long they are ready to commit to it, and what the legal implications are.
