

# MX vs. ATV BACKFLIP MANIA

"Zack help I can't move," I have never got back flipped over, well have I?

Zack and I were playing MX ATV in 2019 at Zack's place.

When we were logging in, I was getting on to the couch to play the game. The controller was dinging like crazy.

The game was lagging because there were so many people playing it.

Things were glitching in and out. We thought we could ride through them.

Sand and people were flying everywhere. When we got to play, Zack back flipped over me and he shot my tires with his helmet gun.

I love playing games with Zack.
