

Dear Parents,

During this term your child will be learning about Sustainability and ways that we can all help to look after our environment.

One of the things students are learning about is how to reuse items that are commonly discarded.

In a couple of weeks students will be constructing items out of these items and we would very much like you to start sending them to school so they can go into a collection that students will share.

Some of the things we would like you to send include:

- Egg cartons
- Cardboard
- Plastic containers
- Paper towel rolls, cling wrap rolls or aluminium foil rolls
- Old buttons
- Used ribbon
- Used wrapping paper
- Material scraps
- Any other things that you can think of

Thank you so much for helping us to teach our children how important it is to save finite resources.

Kind regards,

---
