

NEXUS

GET THE SKILLS, EXPERIENCE AND CONFIDENCE YOU NEED TO MAKE A REAL DIFFERENCE IN THE CLASSROOM.

"Secondary teaching was a natural second career for me. Nexus jumped out as a program made to order for a career changer: challenging, academically rigorous, and designed to take advantage of established skills and resilience."

"I like that we are provided with classroom experience early on and that our experience is highly valued, with Nexus cultivating strong professional relationships between the pre-service teacher and school. Most of all, I feel that the program's social justice commitment sets me up for a versatile career in teaching for the public good."

Elliott Child, Nexus graduate

YEAR ONE

Start course work and participate in two Nexus intensives and fortnightly online workshops. Start work in an Education Support role one day a week in Term 2 and then two days a week in Term 3 & 4.

YEAR TWO

Course work continues including a second Nexus intensive. Move to a 0.8 teaching load as a paraprofessional.

GRADUATION

Graduation and transition to provisional registration.

If you're keen to build a rewarding career in teaching, La Trobe's Nexus program is for you. As part of Nexus, you will complete a Master of Teaching (Secondary) or (Primary) in either 18 months (accelerated) or two years whilst getting paid to work in the classroom.

As part of Nexus you will:

Benefit from part-time employment at teacher aide rates in your first year and full-time employment with 0.8 teaching load in your second year. As a Nexus student you can also receive up to \$14,900 in financial support on top of your salary.

Be part of a close community of practice including academic skills support and mentoring.

Benefit from a Commonwealth supported place.

Develop your classroom skills, with a significant proportion of your learning taking place in the classroom. This also means you will build real and lasting relationships with your students, fellow teachers and the wider community.

Receive employment support and opportunities for professional development in social justice areas for your first two years after graduation.

Be ready for an in-demand, rewarding career, with an estimated national teacher shortage of 4000 teachers by 2025.
