What We Learned

Term 4 has been an exciting time in the Visual Art room. Our learning focus has been Shapes and Line. We have explored artists and art which we see at festivals as well as art connected to our whole school term theme of Toys and Games.

The students also enjoyed using the new see through easel to make lines and shapes with shaving foam or markers.

Thank you to all the students for giving their very best in Visual Arts this year and I hope the families enjoy the collection of art and the special portrait project made by the students, which will be sent home before the end of term.
