Child Safe Code of Conduct & Child Safety Statement of Commitment

ASPS is committed to child safety - students should be safe in all school environments when in our care and we have zero tolerance for child abuse.

The Child Safe Standards require schools to have strategies to embed in their school a culture of child safety.

As a school we play a critical role in protecting children. The information in the ***Child Safe Code of Conduct*** and ***Child Safety Statement of Commitment*** explains how we create a child safe environment, identify and report signs of abuse and our commitment to Child Safety.

All staff, volunteers and school council members of our school are expected to observe child safe principles and expectations for appropriate behaviour towards and in the company of children.

The Victorian Government is committed to the safety and wellbeing of all children and young people. The Child Safe Standards are compulsory minimum standards for all Victorian early childhood services and schools, to ensure they are well prepared to protect children from abuse and neglect.
