1. The Aussie Women's Swimming Relay Team won the 4 x 200 metre freestyle event at the World Championships last week with a race time of 7 minutes 42 seconds. What was the **AVERAGE** time each of the 4 swimmers took for their 200-metre swim?

2. On "**MASTERCHEF**" last week, all 3 comperes – George (born 4/10/1978), Matt (18/12/1963) and Gary (12/2/1967) were either sacked, or they resigned (no-one is quite sure which of these is true!). Find the mean, median and mode of their ages as at July, 2019.

3. Bindi Irwin, animal lover and talented entertainer, became engaged on her 21<sup>st</sup> birthday last week. She and her fiancée first met  $5\frac{3}{4}$  years ago, and have been sweethearts ever since. How many **MONTHS** are there in  $5\frac{3}{4}$  years?

4. There are now 9 "**Treehouse**" books in the Treehouse series, written by Andy Griffiths. If each book has been reduced in price to sell at \$7.95, and Benny buys one of each, how much change does he get from a one-hundred dollar note?

5. Among Queen Elizabeth II's favourite TV shows are "**DOWNTON ABBEY**", "**KEEPING UP APPEARANCES**" and "**CORONATION STREET**". How many **MORE** syllables are there in the longest of these titles, than in the shortest?

6. In Britain last week, a small dog weighing 7.4 kg was snatched by a seagull weighing just 960 grams. What was the **DIFFERENCE** between the weights of the dog and the seagull?

7. The Grand Final of "**HOUSE RULES**" was held last week, and the winners received a prize of a quarter of a million dollars. Write that prize money down in figures.

8. In the Andy Griffith "**Treehouse**" series of books, the treehouses have these storeys: 13, 26, 39, 52, 65, 78, 91, 104 and 117. Find the mean, median and mode of all these storeys.

9. An asteroid (huge rock) hurtling past earth last week had a diameter of 100.237 metres. Find its radius.

10. **Open-Ended Question:** What is the **PROBABILITY** that **tomorrow** is Friday?
