

## Welcome to PAM

PAM is the Parent Access Module for our College Learning Management System (SIMON). Through this interface you will be able to access things such as daily messages, student reports, current tasks, newsletters and timetables.

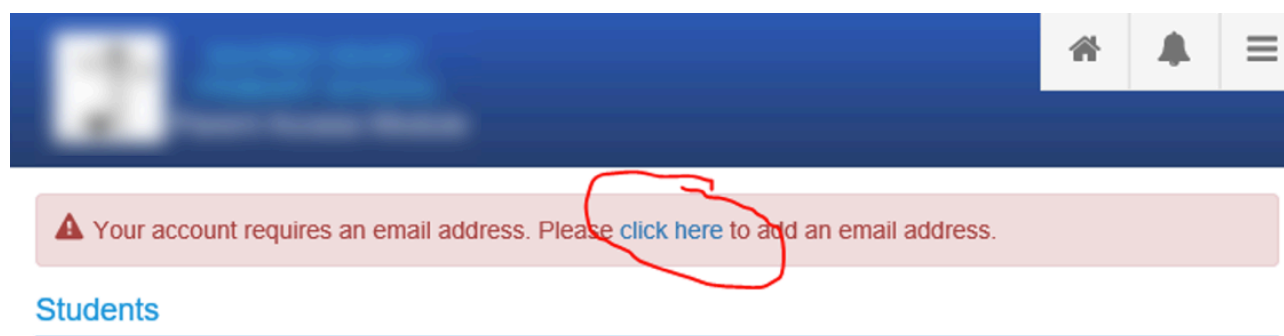

We will be holding information sessions about PAM and more about its capabilities in term 3.

To access PAM you will need the following information:

The PAM web address: <https://pam.sackialla.catholic.edu.au>

Your username and password – these are your individual login details to get into your child's profile. These were given at the term 2 learning conversations. If you do not have your username and password or have misplaced it, please contact your Pastoral Group Leader.

When you first login, please follow the prompts to verify a relevant email address for your account.

Once an email address has been verified, this email address can be used as your username. If you would like to change the password to something you will remember, go to the three-line, Main Menu icon and then select 'My Settings'. Enter details into the 'Change password' boxes. NOTE that an email address must be verified before any password change is attempted.

If you have any questions or difficulties, please contact your Pastoral Group Leader or Sue Carroll. You can email [scarroll@sackialla.catholic.edu.au](mailto:scarroll@sackialla.catholic.edu.au) for assistance.
