Careers & Jobs

Welcome

Hoping everyone had a relaxing term break. Please contact the careers office if you have any questions in regards to career options.

Yr 12 News

Nearly all Year 12 students have completed their one on one Year 12 Careers Interview with Careers. There are only a couple to complete their interviews over the next two weeks. Year 12 students need to check their schedules to see if their Careers Interview or follow up is scheduled.

Yr 11 News

Year 11 one on one Careers Interviews will be held in Term 2 whereby the current Career Action Plans will be used.

Year 11 students should keep their eyes open for Newsfeeds and information sessions listed below and on the Universities and TAFEs websites to help you continue to explore your career options.

Yr 10 News

On the 31st March, 2021 Year 10 students attended a Teamambition Panel Presentation in the Theatre during Pathways. The students really benefited from the Panel presentation. Here are some of the student quotes:

• "I learnt to give everything a go. High school is a stepping stone and will never fully influence my career path as my interests and passions will change when I'm older."

- "Today I learnt more about the impact and importance of taking opportunities. The decisions I make now aren't game changing."
- "I learnt what a major is at university. There are heaps of majors I can choose from."
- "I learnt about what life is like after high school. There are so many job opportunities no matter what I choose to study."
- "I can change my career more than once and many careers can be linked to different jobs. It's okay for me to change my mind."

Open Days & Info Sessions

Inside Monash

Job Spotlight

How to become a Joiner

Form the foundations we live upon

What do Joiners do?

Joiners work with wood and other materials and cut, shape and fit parts. They create and repair fittings and structures ready for installation on-site. Joiners typically work in a workshop, as opposed to carpenters who build structures on-site.

If you are hard-working, like to work with your hands, and are mathematically minded, becoming a Joiner might be the perfect job for you.

How to become a Joiner in Australia

The most common pathway to becoming a Joiner is completing a relevant VET qualification through an apprenticeship. It may be possible to find work as a Joiner with no qualification, but you'll need to show you have plenty of hands-on experience.

Step 1 – Consider completing your high school certificate and take subjects such as Maths and Trades.

Step 2 – Complete a Joinery apprenticeship. You will get hands-on experience working for an employer while completing a relevant VET qualification. This could be something like a Certificate III in Joinery or Carpentry, or a Certificate IV in Building and Construction.

Step 3 – Make sure you have any other essential requirements covered, such as a White Card.

Step 4 – Start working full-time as a Joiner and continue to build on your skills and experience.

Step 5 – Consider starting up your own business.
