News & Updates

Rail Industry Growth

New VET course for 2020 - Cert II in VET Heavy and Light Rail Fundamentals

An exciting opportunity for students interested in a career in the rail industry.

The Rail Authority – Level Crossing Authority (Vic Government) has sponsored the development of a pre-vocational course in heavy and light rail fundamentals. This VET course is designed for secondary students considering a career in the growing rail industry.

Students in VCAL, VCE or Year 10 are encouraged to undertake the course over two years. You must be prepared to attend Newport, Melbourne for theory and practical training which is walking distance from the station. Training will be weekly on a Wednesday from 12.30pm – 4.30pm. If interested, please send an email to Gordana Stankovski Rail Academy Co-ordinator, Industry and Level Crossing Removal Project:

railcareers@levelcrossings.vic.gov.au listing your school, name and current year level.

Change of Preference	Open: 18 th February at 10am	Closes: 19 th February at 4pm
February offer 4 - Final	Released: 24 th February at 2pm	

Career Focus Hairdresser

Hairdressers cut, style, colour, straighten and blowwave hair and provide clients with hair and scalp treatments. In most salons, the senior hairdressers and the more advanced apprentices cut and style hair. Apprentice hairdressers undertake routine tasks in the initial stages of employment, assisting senior hairdressers with preparing clients, shampooing, applying and removing simple hairdressing treatments, and sterilising and maintaining equipment. As apprentices gain experience, they carry out more complex tasks under supervision.

Hairdressers:

- Talk to clients about their requirements
- cut hair using clippers, scissors or razors
- shampoo, condition and rinse hair
- provide services such as colouring, bleaching, applying treatment, permanent waving (with chemical solutions), straightening and tinting
- dry hair and style it using brushes, combs, straightening irons and other equipment
- shave and trim beards and moustaches
- advise clients on hair care
- block (shape), clean, colour adjust, curl and cut wigs and hairpieces
- attend hairdressing seminars and training in order to keep up to date with new products and techniques
- operate a cash register and computer

- perform reception duties such as answering telephone calls and making appointments
- sell retail products
- maintain client records
- clean the salon, work areas and equipment.

Hairdressers may be employed in women's, men's or unisex salons. They spend most of their day on their feet and are usually required to work staggered shifts to fit in with salon business hours. They have a high level of public contact, so they need to be well presented.

Personal requirements of a hairdresser:

- No allergies to hair products
- pleasant personality
- good communication skills
- able to work under pressure
- good hand-eye coordination
- patient
- have creative flair
- attention to detail
- are able and willing to follow instructions.

To become a hairdresser, you usually have to complete an apprenticeship. Entry requirements may vary, but employers usually require completion of Year 10. You can also become a hairdresser by completing a VET qualification. As subjects and prerequisites can vary between institutions, you should contact your chosen institution for more information. Most hairdressers are employed in hairdressing salons, usually working with four to six people. Some work in large department stores. Hairdressers may also be employed as stylists for television, film, theatre or advertising agencies. Those with good retail skills (selling products or additional treatments) are particularly in demand. Many hairdressers, after a number of years working in the industry, set up their own businesses, enter into partnerships or teaching hairdressing.
