# 1. About our pathways

## La Trobe offer a list of pathways for students to consider...

A pathway is a small left turn before a student gets to their true destination. There are more ways to getting into university than you think. Students don't just need to rely on an ATAR for everything. Pathways were introduced to help the student follow their dreams.

So, completing a diploma or starting a pathways bachelor's degree will get them on the path, students are no far behind by completing or starting a pathway. Most pathway courses or diplomas include the first-year subjects of your desired course. If students are unsure of the pathway to choose or don't get the ATAR for the desired course, this guide should make it easier to find their plan B.

Whether it be starting a diploma at TAFE or completing a La Trobe alternative pathway. There are benefits to completing either a TAFE or University Pathway. TAFE certificates and diplomas may qualify students to work and gain experience in their industry while they continue their studies at La Trobe.

One of the major benefits of completing a University pathway is that you will gain experience and an understanding of the expectations of academic learning and writing.

La Trobe has close relationships with TAFE to offer support in assisting students to make the transition from TAFE to La Trobe.

If a student is interested in finding out a tailored option to their situation, we offer student consultations with our expert course advisors. During these consultations, our team can help to find the perfect pathway, assist when applying for VTAC, and change of preference periods. To [book a one-on-one consultation](#), visit our website.

## How to use this Pathways Reference Guide

Our marketing team wants to make assisting your students with pathway options easier. That is why we have created this comprehensive reference guide to help you. Here is a quick guide on how to find the best pathway.

1. The pathways reference guide is set up in the individual faculties. For example, if you are interested in Arts, Social Science and Humanities you'll need to go to that section.
2. In this section, you will find the different courses that you can do as a pathway to the course of interest.

For example, if you are interested in the Bachelor of Arts, you'll find it in the "Pathway to" column. The pathway would be the Diploma of Arts and you'll be able to see the entry requirements for the course.

Pathway Course Title	About the course	Entry Requirements	Pathway to
Diploma of Arts	Carve out your own path into a career of your choosing. With a wide range of majors and minors the possibilities are endless.	ATAR – N/A VCE Units 3&4: a study score of at least 25 in English (EAL) or at least a 20 in English other than EAL.	Bachelor of Arts

3. We have included an appendix at the back of this guide, where it details information on FREE TAFE pathway courses.

## 2. Key Terms

**ATAR (Australian Tertiary Admissions Rank)** – VTAC and UAC gives you an ATAR (a number between 0.00 and 99.95) to rank your Year 12 against other students.

**ASSC** – ASSC is the acronym for the College of Arts, Social Science and Commerce.

**Australian Qualifications Framework (AQF)** - Qualification type refers to the broad discipline-free nomenclature used in the AQF to describe each category of AQF qualification, for example, Senior Secondary Certificate of Education, Certificate III, bachelor's degree.

**Credit/Advanced Standing** – If you've completed relevant, formally recognised studies at another uni or TAFE or have suitable work experience, you may get credit/advanced standing for some or all your studies when you enrol at uni. This means you may finish your degree earlier.

**CP Portal** – This is the portal our marketing team created to give career practitioners a one stop resource for our course guides, university updates and includes a booking page where you can book in a school visit with us. You can register for an account if you haven't already registered via this [link](#).

**Commonwealth Supported Place (CSP)** – A commonwealth support place is a place at university or higher education provider where the government pays part of your fees. This part is a subsidy, not a loan and you do not have to pay it back.

**Credit Points (CP)** – Credit points measure an individual student's study load. Usually, subjects are worth 15 credit points, but some larger subjects may be worth 30 credit points. Credit points also outline the amount of work that may be involved in the subject. For example; one credit point equates to about fifteen hours of work, from all forms of study including on-campus contact, assessment tasks and at-home study).

**Diploma Vs. Bachelor** – A diploma qualifies an individual to apply integrated technical and theoretical concepts to their working industry and is used as a pathway for further learning. A diploma qualification is scaled as a level 5 in the Australian Qualifications Framework. A bachelor's degree qualifies individuals who have learnt a broad and coherent body of knowledge in a range of contexts to undertake professional work in their industry. A bachelor's degree qualification is scaled as a level 7 in the Australian Qualifications Framework.

**Entry Requirements** – Each course has a different requirement you need to meet to be granted entry. These requirements are usually made up of qualifications, subjects, or exam grades. Entry Requirements also include course pre-requisites of English and occasionally extra specialised subjects.

**Honours** – A bachelor's degree that is tagged with Honours provides students with the pathway to go into undertaking research. An honours degree also qualifies students in a professional working to be scaled at a level 8 on the Australian Qualification Framework.

**Pre-Training Review** – For TAFE courses, a pre-training review must be completed. Pre-training reviews may vary across each of the different courses offered at SuniTAFE. A pre-training review involves sitting [an ACER Literacy and numeracy](#) assessment to find out what skill level you are at and in some cases either a formal or informal interview. For more information on a Pre-Training Review please contact [SuniTAFE](#).

**Satisfactory ATAR** – This is an ATAR above 40. ATAR's for the coming years intake (eg. 2021 ATAR rank) are not set until the very end of the year. Please subscribe to the La Trobe College Emails to find out when the ATAR's for all LTCA diplomas are released.

**SHE** – SHE is the acronym for the College of Science, Health and Engineering.

**WAM** – Weighted Average Mark is the mark calculation that La Trobe uses instead of the general Grade Point Average (GPA). To calculate a student's WAM, you use the following formula:  $\text{Sum of (final marks x subject credit points)} / \text{sum of total credit points} = \text{WAM}$ .

## 3. Achieve at La Trobe

An ATAR score is one way of getting into university – but not the only way of measuring your achievement.

La Trobe Research shows that there is a number of other ways to predict a student's success.

That's why La Trobe has introduced an alternate entry pathway that involves students studying a single uni subject online in Semester 2, 2020, and use the mark achieved to get into a selected range of courses.

Achieve at La Trobe gives students a taste of uni life and unlocks an offer to an eligible degree based on the uni subjects' marks. Depending on the subject students choose, they can receive credit towards their future degree.

Eligibility: Achieve at La Trobe is available to all VCE, HSC and IB students including ungraded students

Cost: Achieve at La Trobe is completely FREE and ONLINE. Students must apply through the La Trobe website.

How To Apply: Students can apply for study through our [Achieve at La Trobe online form](#).

2020 Dates: Students can start their chosen subject in November 2020. Students will complete this subject alongside their Year 12 subjects.

College	Subject	Course Code	Delivery
<b>SHE</b>	Inside Information Technology	CSE1IIT	Online study period 6* (26 <sup>th</sup> Nov – 20 <sup>th</sup> Dec)
<b>SHE</b>	Programming Environment	CSE1PE	Online study period 6* (2 <sup>nd</sup> Nov – 20 <sup>th</sup> Dec)
<b>ASSC</b>	Economic Issues and Public Policy	BUS1BUE	Term 6 (2 <sup>nd</sup> Nov – 11 <sup>th</sup> Dec)
<b>ASSC</b>	Accounting for Management Decisions	ACC1AMD	Term 6 (2 <sup>nd</sup> Nov – 11 <sup>th</sup> Dec)

\*Please note online study period 6 subjects will be taught in a 6-week intensive mode and will only likely suit students who are completing an unscored VCE.

There are a large range of subject available that are eligible through the Achieve at La Trobe program including Business, Biology, Chemistry, Education, Engineering, Health, IT, Law and Humanities. These subjects will provide entry into several our courses (excluding some course offering, please refer to our Achieve at La Trobe webpage).

For a full range of courses eligible to [Achieve at La Trobe](#) Students please our webpage.

## 4. Prepare at La Trobe

Again, a student's ATAR is not the only way of measuring success. La Trobe has created Prepare for La Trobe where students study a set of micro-subjects that will lead to successfully obtaining an entry into one of our courses.

Students completing VCE, HSC, and IB certificates, will need to complete three micro-subjects. Student's who chose to complete VCAL (Senior) will need to complete six micro-subjects. For both instances, La Trobe will take the average mark across these subjects and calculate in to a La Trobe entrance score.

And if students receive an ATAR in 2020, La Trobe will look at the student's ATAR score and average mark across micro-subjects and use whichever mark is higher to assess a student's application.

Students can choose from subjects in writing, reasoning, mathematics, world-changing science, and more. These subjects are taken from our Tertiary Preparation Program.

**Eligibility:** Prepare for La Trobe is available to all Year 12 students, including VCE, HSC, IB, and VCAL (Senior) students.

**Cost:** Prepare at La Trobe is completely FREE and ONLINE.

**How to Apply:** Students can apply for the [Prepare for La Trobe program Online](#). Some requirements for the application are listed below:

- A personal statement (approx. 200 words). Students should include in this personal statement career aspirations, motivation for study and what they are passionate about.
- Selecting a course code. There are three PREPARE options when students apply.
  - o For VCE, HSC, or IB students looking for a pathway to science, health and engineering, they should select 'PREPARE (SHE)', Course Code: ETPPO\_S
  - o For VCE, HSC, or IB students looking for a pathway to arts, social sciences and commerce, they should select 'PREPARE (ASSC)', Course Code: ETPPO\_A
  - o For VCAL (Senior) students, they should select 'PREPARE (VCAL)', course code ETPPO\_V.

**2020 Dates:** Micro-subjects start every eight weeks, so subjects start in November and even January 2021. Depending on which Prepare at La Trobe pathway students are eligible for and when micro-subjects are completed, students may be eligible to apply for entry into semester 1 and 2 2021.

**What is the difference between micro-subjects and a standard university subject?**

Micro-subjects are short university preparation subjects. They provide discipline-specific knowledge while teaching tertiary-level academic skills. Each subject consists of approximately 50 hours of learning (including time spent doing assessments) spread over seven weeks.

For more information on the subjects available, please visit our [Prepare at La Trobe](#)  webpage

## 5. Diploma of Professional Learning

The Diploma of Professional Learning is another great pathway for a student wanting to get into their dream course. It allows students to complete Tertiary Enabling subjects (from our Tertiary Preparation Program) as well as completing core first-year subjects from your desired course.

The way it works is you'll complete 6 tertiary enabling subjects (3 each semester) and 4 course based subjects ( 2 each semester) If you can maintain the equated weighted average mark for course entry you may be able to transfer to the Bachelor's degree of your choosing.

**ATAR:** Range of 50 or above.

**Entry Requirements:** VCE: 3&4 a study score of at least a 25 in English (EAL) or a least a 20 in English other than EAL.

**Intake:** Semester 1 (March) and Semester 2 (July) 2021

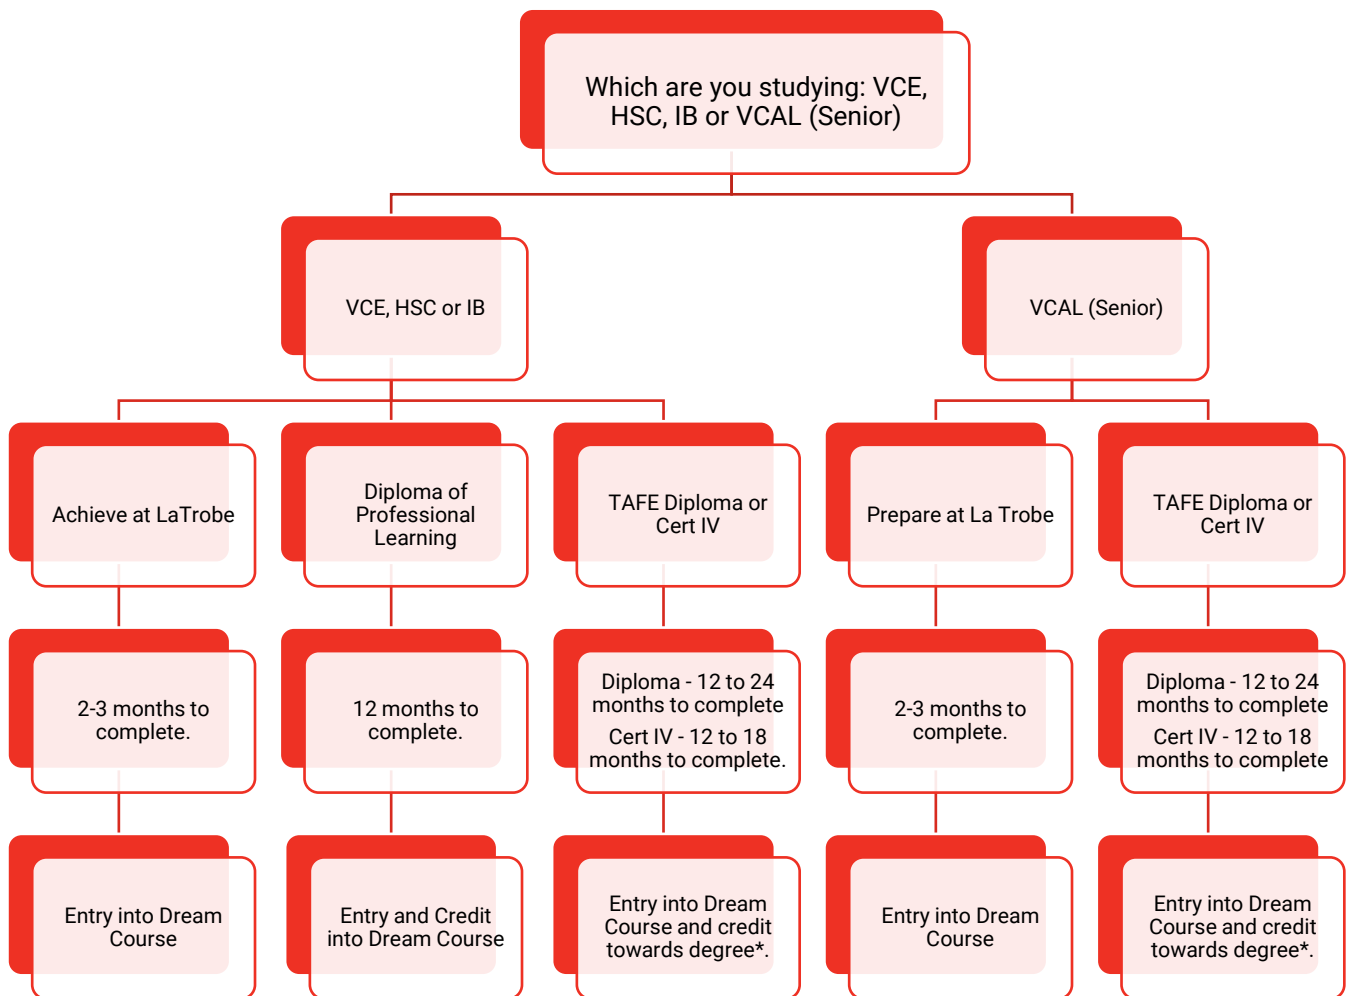

**Cost:** \$11,155 per year (CSP)

The following courses are available to transition after 6 months in the Diploma of Professional Learning:

- Bachelor of Arts
- Bachelor of Biological Sciences
- Bachelor of Business
- Bachelor of Business (Event Management/Marketing)
- Bachelor of Business (Marketing)
- Bachelor of Business (Sport Management)
- Bachelor of Business Information Systems
- Bachelor of Creative Arts
- Bachelor of Health Sciences
- Bachelor of Social Work
- Bachelor of Information Technology
- Bachelor of International Relations
- Bachelor of Media and Communication
- Bachelor of Science

## 6. What pathway will suit me best?

The diagram below shows a summary of just some of the ways pathways work at La Trobe University. This diagram shows that no matter the pathway, they still will help students get into their desired course with La Trobe.

\*Please note some TAFE courses do not have eligible credits towards some of our La Trobe degrees. For more information on this please find your preferred course below to see if credits are applied to La Trobe course. Credit also varies from qualification to qualification. For example; a diploma generally provides students with one year of credit depending on the course.

## 7. Arts, Social Science and Communications

### University Pathway Options

Pathway Course Title	About the course	Entry Requirements	Pathway to
Diploma of Arts – Offered in all regional campuses including Mildura, Shepparton, Albury-Wodonga and Bendigo.	Carve out your own path into a career of your choosing. Bachelor of Nursing (Enrolled Nurse). Students must hold there EN nursing registration to be eligible.

# 11. IT and Engineering

## University Pathway Options

Pathway Course Title	About the course	Entry Requirements	Pathway to
Diploma of Information Technology at La Trobe College (Bundoora ONLY)	Complete the first year of the Diploma of Information Technology and transition in to the second year of any of the following degrees*(provided you meet the minimum Weighted Average Mark)	Satisfactory ATAR Score.	Bachelor of Business Information Systems. Bachelor of Cybersecurity Bachelor of Information Technology
Diploma of Engineering at La Trobe College (Bundoora ONLY)	Complete the diploma of engineering at La Trobe College and transition into the second year of the bachelor's degree at La Trobe Bundoora.	Satisfactory ATAR Score.	Bachelor of Civil Engineering Bachelor of Electrical and Electronic Engineering (Honours) Bachelor of Engineering Honours (Industrial)

## TAFE Pathway Option

Pathway Course Title	About the course	Entry Requirements	Pathway to
Diploma of Information Technology Networking at SuniTAFE	A local offering to kickstart your IT career. Complete this SuniTAFE Diploma and receive 6 subjects toward the Bundoora or Bendigo degree.	TAFE Pre-training Review.	Bachelor of Information Technology.

# 12. Science

## University Pathway Options

Pathway Course Title	About the course	Entry Requirements	Pathway to
Bachelor of Science	The Bachelor of Science provides students with many avenues of this world. Major in Biochemistry, botany, Chemistry, Data science, Environmental geoscience, genetics, mathematics, microbiology, Physics, Statistics or Zoology in Bundoora or Molecular biology, physics, mathematics or pharmaceutical chemistry at Bendigo.	<p>ATAR Range – 70.00-96.40*</p> <p>VCE Units 3&amp;4: a study score of at least 25 in English (EAL) or at least a 20 in English other than EAL.</p> <p>Units 3&amp;4: a study score of at least 20 in any Mathematics.</p>	<p>Bachelor of Biomedical Science</p> <p>Bachelor of Animal Veterinary Biosciences</p> <p>Bachelor of Biomedicine</p> <p>Bachelor of Agricultural Science, Bachelor of Pharmacy (Honours).</p>
Diploma of Psychology at La Trobe College (Bundoora ONLY)	Complete the diploma of psychology and enter the second year of the Bachelor of Psychological Science	Satisfactory ATAR score.	<p>Bachelor of Psychological Science</p> <p>Bachelor fo Pyschological Science (Honours)</p>

\*Please note the ATAR range is subject to change year on year through each VCE intake.

**Quick Tip** – If students have not completed the required maths or science subjects, we have an option for them to complete the subject through UniLearn. Subjects available to complete are the following:

- Senior Mathematics – Successful completion of UniLearn Senior Mathematics with an overall grade of at least 60% satisfies the University's Mathematical Methods pre-requisite.
- Chemistry - Successful completion of UniLearn Chemistry with an overall grade of at least 75% satisfies the University's Chemistry pre-requisite.
- Biology - Successful completion of Biology with an overall grade of at least 60% satisfies the University's Biology pre-requisite.

For more information on [UniLearn](#) please visit their website.

## 13. Frequently Asked Questions

- **What if students don't get an ATAR of 40?**

Prepare at La Trobe is a great pathway for students who receive an ATAR below 40. This program is offered and can be completed in time to apply for Semester 1 2021. Every university is different, at La Trobe our policy states that adjustment factors are only applied to a student who has received an ATAR of 40 or higher.
- **Am I guaranteed entry into my course after completing a pathway?**

No, there is no guarantee that you will be provided an offer into a student's desired course. There are many factors that our admission team look at these include:

  - English pre-requisites
  - Course requirements (Eg. Maths pre-req or the CASPer Test)
  - Completion of relevant subjects.
- **Can I apply for a pathway on VTAC?**

Depends on the type of course and pathway students are choosing. Here are a couple of options:

  - If students are interested in a La Trobe Alternate Pathway Program, students will not be able to apply through VTAC, they must express interest directly.
  - If students are interested in applying for a TAFE pathway, they must apply direct through the SuniTAFE website.
  - If students are looking to start an Educational Studies or Health Science course to eventually transfer into their desired course in Education or Speech Pathology, then it is recommended that students include these in their VTAC application.
- **Can La Trobe Alternate Pathways be recognised by other universities?**

Achieve at La Trobe students will be able to have their completed subject recognised by other universities, but will not provide students entry, only credit for the subject. Students who have completed Prepare at La Trobe will need to continue their studies with La Trobe.

## 14. Appendix

**Appendix 1.1** - Some TAFE courses listed in this document are listed on the FREE TAFE list as they have been marked as a priority course by the Victorian State Government.

- Diploma of Accounting.
- Advanced Diploma of Accounting.
- Diploma of Early Childhood Education and Care
- Diploma of Community Services
- Diploma of Nursing
