

YOUTH MAKING **CHANGE** FOR CLIMATE CHANGE

Climate Change is real and we all know it is happening in our towns!

Greater Shepparton City Council is leading the Victorian Government funded Climate Change Youth Leadership Program and are currently seeking expressions of interest for young people to join the Program.

Young people are our future and we need your help!

Are you aged between 12 and 25 years?

Are you passionate about Climate Change?

Do you want to lead the Change?

If you answered yes to any of these questions, then the Climate Change Youth Leadership Program is for you!

This program will facilitate leadership opportunities in climate action and the development of advocacy skills for young people within the municipalities of Greater Shepparton, Strathbogie and Benalla. Come and join the Climate Change Youth Leadership Group in which you will plan and lead a community forum to develop local initiatives to respond to climate change.

There is no cost to join or to be part of the experience.

For more information and to lodge your interest before 23 May, 2022
