

# Why zoos should be banned!

I strongly believe that zoos should be banned and after you read my outstanding reasons why, you will totally agree too! Zoos should be banned because they keep all those innocent poor animals in captivity, the animals will have no idea how to catch food and prey and also if they are released they won't have any family!

Only a fool would think that an animal is happy in its unnatural habitat, how would you feel if you were taken from your home and put in a different home? 🙄 **I definitely wouldn't feel very pleased!**

It is clear that if released the animal will have no idea how to catch prey and could starve to death because its family wouldn't have time to teach them because the zookeepers take them when they are very young! Oh no they relied on humans too much! (they are taken to the zoo when they are very young).

Could you *imagine* not having a family? That's exactly what the animals in the zoo that get released feel like. Don't start on this terrible topic... I would hate not having a family!

Without a doubt, everyone will agree with me that zoos should ABSOLUTELY be banned because of the following reasons. They keep too many animals in captivity, the animals will have no one to teach them how to hunt and if released, they won't have a family. I strongly believe that zoos SHOULD be banned and everyone must agree with me too!
