

6E had a wonderful start to the year as everyone settled in so well and got to know each other. We have been having so much fun learning together. Students really enjoy working on phonics, exploring and building words using the alphabet on the floor, which has been a great way to learn through play. We have also been learning numbers and developing our math skills. It has been lovely to see students building good habits, especially with reading, and growing more confident each week. We are very proud of how well everyone has settled into routines and is supporting each other in their

learning.
