

# PwC Higher Apprenticeship Program

# Our Program

# What is the Higher Apprenticeship Program?

The Higher Apprenticeship Program is an alternative pathway to professional services. It's a program that helps you earn a qualification (Certificate IV) in Information Technology (IT), followed by a Diploma while working at PwC.

Join us straight out of high school. You'll develop business and technology skills and work toward a qualification in IT. And with study support, you won't need to worry about course fees or the cost of textbooks and materials.

Experts will coach you in their field. You'll learn in a hands-on environment, forming relationships that will set you apart. You'll tackle varied, challenging work with a tangible impact on the community and business world.

# What qualifications do you earn?

There are two parts to the program:

- Certificate IV in Information Technology
  - 20 units of study across 12 months
- Diploma of Information Technology
  - 20 units of study across 12 months

The program runs in Brisbane, Sydney and Melbourne across different parts of the firm, like:

- Technology Consulting
- Risk Assurance
- Digital Technology Services
- Customer Experience and Insights

Program start date: February 2023

# What are the benefits?

## **Embrace technology.**

From Artificial Intelligence to Augmented Reality, Blockchain to drones, robots to the Internet of Things, and 3D printing to Virtual Reality, new technologies are constantly emerging. At PwC, we're helping our clients to explore how they can use technology to solve important problems.

## **Qualification without the uni price tag.**

Thanks to our study support, you won't need to worry about paying for course fees, textbooks or materials. That means no student loans and no tuition fees.

And you'll be earning while you study with our competitive starting salary.

## **Hands on learning.**

With a industry on-the-job learning, we will provide you with the coaching, training and development you need to act with confidence, align your work with your passions and create a meaningful career that grows as you do.

## **Room to grow.**

Just like our graduates, you'll work on varied, challenging client work or internal projects, which make a real difference to the world of business.

5 And when you complete the program, you get the chance to join our Graduate program and continue growing at PwC.

Having the opportunity to work on high impact projects where I can see the impact my work has on the community has been exciting so early in my career. On top of this, the chance to jump in the deep end has helped me learn and experience more than I ever would have had I decided to study at university. I've worked on projects in a broad range of sectors including housing, transport, emergency management and professional sports.

**Ben McLeod**

Current PwC Higher Apprentice

# What do we look for in candidates?

- We believe in hiring from all backgrounds, degrees of talent and cultures.
- We look for skills such as communication, problem solving, agility and creativity.
- Are you part of the debate team? Are you passionate about making a difference in the world?
