

Junior Web-Developer (trainee)

Do you live and breathe Web development & Coding?

We are on the hunt for our next Developer Superstar, no professional experience required, just an undeniable passion for this career pathway.

About Us

Our evolution from humble beginnings as a single practice in regional Victoria to almost 50 practices across Australia has been a remarkable journey.

Working across private practice and community aged care, we are the industry leader in Australian physiotherapy and have accrued over 350 staff across multiple locations nationwide.

We offer a warm, supportive work environment, challenging and diverse opportunities, and room for personal and professional growth.

Key Responsibilities

As a Junior Developer, you will work closely with the Head of Software Development to deliver projects promptly and efficiently.

Some of these responsibilities include:

- Implementing and testing new functionality across different platforms and devices
- Contributing creative ideas to enhance user experience
- Regularly refreshing and updating content on existing company websites when necessary

About You

You live and breathe software, are passionate about web development and are eager to make your mark in the field.

We're looking for individuals who embody the following qualities:

- Enthusiastic about learning and problem-solving
- Effective communication and collaboration skills
- Strong attention to detail and a commitment to delivering high-quality work
- A creative mindset with the ability to think outside the box
- A passion for staying up-to-date with the latest web development trends and technologies

The successful candidate will have the following skillset:

- Proficient in **HTML** and **CSS**
- Proficient in **JavaScript ES6+**
- Experience with *at least one* backend language, such as **PHP**, **Java** or **Node.js**

Highly desirable skills (not essential)

- Experience with Photoshop, Illustrator or Figma,
- Experience with Git and GitHub/GitLab
- Experience with AWS, DigitalOcean or other Cloud

No professional experience? No problem! We value passion, dedication, and the drive to learn and excel.

If this sounds like you, please send your resume and a portfolio with any previous projects to caelan@physiochoice.com.au.

We can't wait to see your creative side shine!
