

## What if my child is absent from school on NAPLAN days?

Where possible, schools may arrange for individual students who are absent at the time of testing to complete missed tests at another time during the school's test schedule.

## What can I do to support my child?

Students are not expected to study for NAPLAN.

You can support your child by reassuring them that NAPLAN is a part of their school program and reminding them to simply do their best.

ACARA does not recommend excessive preparation for NAPLAN or the use of services by coaching providers.

Some familiarisation and explanation of NAPLAN is useful to help students understand and be comfortable with the format of the tests. Teachers will ensure students are familiar with the types of questions in the tests and will provide appropriate support and guidance.

See the types of questions and tools available in the online NAPLAN assessments at [nap.edu.au/online-assessment/public-demonstration-site](http://nap.edu.au/online-assessment/public-demonstration-site)

## NAPLAN timetable

The NAPLAN online test window is nine days. This is to accommodate schools that may have fewer devices.

The NAPLAN online test window starts on Tuesday 10 May and finishes on Friday 20 May 2022. Tests must be scheduled as soon as possible within the testing window, prioritising the first week.

Online NAPLAN test scheduling requirements are detailed in the table below.

## How is my child's performance reported?

Individual student performance is shown on a national achievement scale for each assessment. A result at the national minimum standard indicates that the student has demonstrated the basic literacy and numeracy skills needed to participate fully in that year level.

A NAPLAN individual student report will be provided by your child's school later in the year. If you do not receive a report, you should contact your child's school.

## How are NAPLAN results used?

- Students and parents/carers may use individual results to discuss progress with teachers.
- Teachers use results to help identify students who need greater challenges or extra support.
- Schools use results to identify strengths and areas of need to improve teaching programs, and to set goals in literacy and numeracy.
- School systems use results to review programs and support offered to schools.
- The community can see information about the performance of schools over time at [myschool.edu.au](http://myschool.edu.au)

## Where can I get more information?
