Computing Club

Interested in learning a computer programming language?

Do you like working with robots?

Interested in some hands-on activities of a lunchtime?

Come along to **W10 every Thursday during lunchtime**. Things you can do include;

- Learn programming languages such as Python
- Work with Edison robots and their Lego kits
- Build your own robotic device using the Hummingbird robotics kits
- Explore the Micro:bit and see how computer code can control devices
- Meet the Dobot Magician robotic arm, including 3D printing
- Developing skills in computer use, including Microsoft Office

See Mr Thompson if you have any questions.
