

Classroom Moments 5A

What a wonderful Term 3 we have had! It has been a term filled with lots of learning, growth and fun

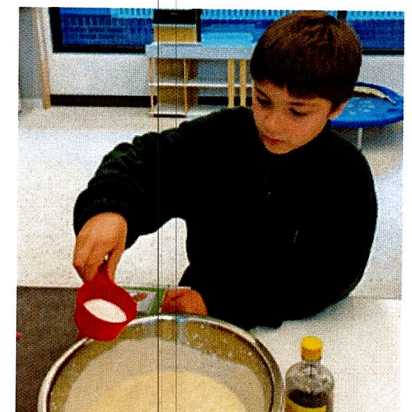

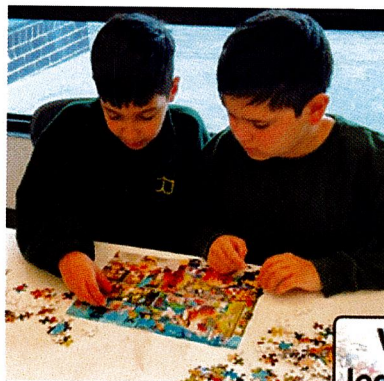

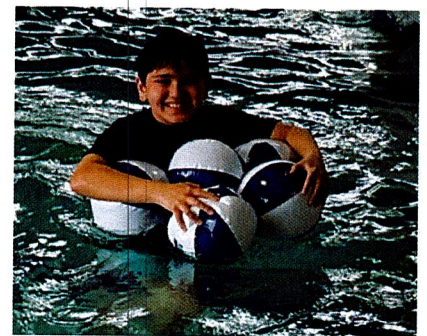

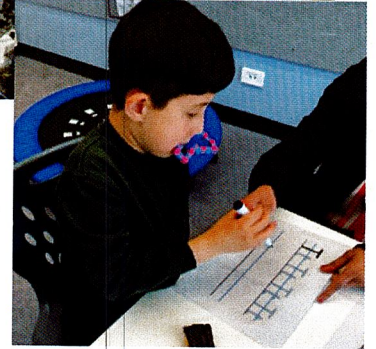

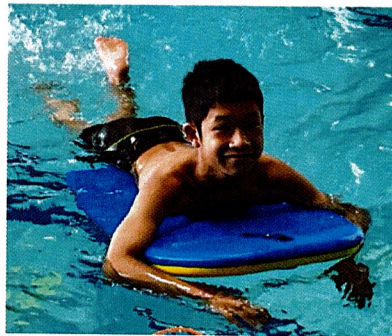

The students have been very focused and continue to show a real enjoyment of learning.

Swimming was a highlight of the term! The students had lots of fun travelling on the school bus and playing in the water with their friends. They have been building their water confidence and developing their independence.

We are so proud of the learning and growth we have seen this term.

We hope you all have a restful and fun-filled school holiday!

Rachel, Roma & Shereen
