Reminder - UNSW Year 12 Medicine Information Evening

12 March

Are you interested in a career in medicine?

Start your medical career at one of the top medical schools in the world. Studying the Bachelor of Medical Studies/Doctor of Medicine at UNSW will provide you with the theoretical understanding and practical experiences you need to launch your career as a medical professional. UNSW's Medicine Information Evening, for current year 12 students, will provide insight into the dynamic blend of hands-on clinical experiences and research-focused learning that you will be immersed in as a UNSW Medicine student. You'll also find out detailed information on the application and admissions process for 2025 entry, including special entry schemes such as Rural, Gateway and Indigenous Entry Schemes. Join us online where you will hear from our expert panel of academic staff, current students and advisors, and get all of your UNSW Medicine questions answered.

General

How to become an Architect in Australia

By the year 2030, the world will need three billion new homes. What's more, Architects will have to create buildings that are 'net zero carbon', with sustainability, culture and people front of mind. It's clear that architecture is essential for improving people's lives – both now and in the future. So how do you become an Architect in Australia? The short answer is study (a Bachelor's degree and a Master's degree), professional experience, an exam, and professional registration. Ready to understand that journey in detail? Let's take a look at how you can become an architect in Australia and the advantage studying with UNSW will give you.

<https://www.unsw.edu.au/study/your-future/how-to-become-an-architect-in-australia>

Scholarships

A Year 12 Guide for Parents

Here are some key milestones for parents and carers to think about as your child heads into Year 12.
<https://careerswithstem.com.au/year-12-guide/>

5 Health Science Careers All About Helping Others

One of the most important roles for health scientists is to protect humans from everyday things that can really hurt us. Meet health professionals working in health science careers, doing the behind-the-scenes work we all need.

<https://careerswithstem.com.au/health-science-careers-that-protect-your-fellow-humans/>

Science Careers Without the Degree

If university isn't for you but you're still keen on working in a science lab, you totally can! There are lots of VET pathways to becoming a lab technician, and here's what that gig looks like.

<https://careerswithstem.com.au/science-careers-without-a-degree/>

What Do Environmental Scientists Do?

If a sustainable future is the plan for our world, environmental scientists are the pros who are going to lead the way in knowledge and resources. From solving problems like contamination of land or water, understanding how a particular environment might be impacted by the construction of a road or railway, or helping communities get a better idea of their flood or bushfire risks, environmental scientists are the ones with the know-how to make all the difference.

<https://careerswithstem.com.au/what-do-environmental-scientists-do-meet-7-making-the-world-a-better-place/>
