

# Boho South Campus Consultation Share Your Thoughts

Northcote High School (NHS) has had a second campus at Boho South, approximately 20 km east of Euroa since 1979. The site includes a basic amenities block, an old schoolhouse (including kitchen, with storage), a recreation room (fire refuge), and several large, platform canvas tents.

The School Council, who are responsible for decision making about school facilities, are considering whether maintaining a second campus is in the best interests of the school community, particularly given the decline in use and the ongoing costs to maintain the site.

## **School Council is seeking to understand community views on the following:**

- Whether the educational benefit students and the school community receive by holding the Boho South Campus outweighs the ongoing cost of maintaining the campus
- Whether campus facilities meet community expectations

## **Separately, but connected to the questions about maintaining the facility:**

- Whether the camps that can be provided at the Boho South Campus provide the educational enrichment experience for students in a way that could not be delivered by another camp/experience cost neutral to the school

For more information please see the 'Frequently Asked Questions' Leaflet.

## **Comments sought up to 20 September 2019**
